Welcome To
Hu An Electric (Singapore) Pte Ltd

Corporation Presentation

Transmission of reliability & Brightness
Top 10 largest cable manufacturers in China

Listed on Singapore Stock Exchange K13.SI

Listed on Taiwan Stock Exchange 911612.TW
Hu An Electric (Singapore) Pte. Ltd. (“HAE”) is a subsidiary of Hu An Cable Holdings. Ltd (“HAC”), which is dual listed on the mainboard of Singapore Exchange and Taiwan Stock Exchange since 2010.

Based on the latest report, our Group have achieved a turnover of SGD 570 millions in 2013.

Establish in 2012, HAE deploys our well trained, motivated, experienced and professional team to develop, supply cables and provide cable solutions across the Oil & Gas, Petrochemical, Power Generation, Shipbuilding, Renewable and Energy industries in Southeast Asia, Central Asia, South America, Africa and middle-east.

To be a leading global cable partner, HAE is committed to supply high quality, reliable and durable products, which have been certified by various international standard bodies such as IEC, VDE, the Lloyd’s Register, TÜV SÜD PSB and etc.
Our Mission

- We provide our business around the world, across the language barriers, diverse customs and unique cultures.

- Exceed our customers’ expectations by being the trustable and reliable provider in design, development, manufacture, deliver products and services that meet the unique needs and expectation of each customers in wires and cables industry.
We Care for Our Customer

- We are project focused, supporting a wide variety of clients, from Operators and Engineering companies to equipment manufacturers and EPC contractors.

- We serve customers with immediate delivery from our inventory.

- We provide custom make cable or cable solutions to project requirement in short production lead times (3-4 weeks upon order confirm).

- We guarantee our product's quality meets the project requirement and 100% comply to international standard at the lowest cost.
Our Products

We manufacturing and selling of cables, copper rods, Aluminum Rods and plastics for power transmission & distribution, Building & Constructions Industries, Mining Industries, Automation Industries, Oil & Gas, Petrochemical, Onshore & Offshore Marine Industries.
Products and applications

XLPE And PVC Low Voltage Power Cables
Products and applications

Medium Voltage Cables (6-30KV)

High Voltage & Extra High Voltage Cables (30- 500KV)
Products and applications

Fire Resistant Cables
Products and applications

SOLAR PV CABLE
Products and applications

Instrumentation Cables comply to BS5308 & BS EN 50288
Products and applications

Neoprene Rubber Cables, Mining Cables, Welding Cables
Products and applications

Oil & Gas, Petrochemical Cables
Products and applications

Overhead Conductor – AAC, AAAC, ACSR, ABC
Products and applications

Marine, Onshore & Offshore Cables
Products and applications

Industries Flexible Cables
**Products and applications**

**10kV ~ 35kV**
Cold-Shrink Cable Accessories
- Outdoor Termination
- Indoor Termination
- Straight-Through Joints

**110KV Prefabricated dry-type cable accessories**
- Porcelain insulator outdoor termination
- Composite shell outdoor termination
- Dry type outdoor termination
- Dry plug in type GIS termination
- Intermediate insulation joint
- Intermediate straight-through joints

Production facilities

Key machines for wire-drawing and stranding
Production facilities

Facilities for insulation, cabling and extrusion
New production facilities

**CCV line for 220kV Cables**
- Switzerland Technology

**VCV line for 500kV Cables**
- Switzerland Technology

**VCV line for 110kV Cables**
- Germany Technology
New production facilities

CCV line for 35kV XLPE & EPR Cables

High Voltage and Partial Discharges Test for HV & EHV Cables
Test facilities

- High Voltage Test System
- Oil Resistant test
- Flame Retardant test
- Oven
- Smoke Density Test
- Acid Gas emission
- Oxygen index test
- Fire Resistant Test
Brand quality

In addition to the above, the Group has also obtained various qualifications and accreditations which certify that its products are in compliance with requisite industry standards for use in certain industries, such as power generation, power supply, communications, ship-building, real estate, and coal mining. It is also a qualified supplier to several major companies in the infrastructure sector.
