SCANDIA GEAR PRODUCTS

Mid 2018
Introduction

We are industry leaders in the design, production, and delivery of apparel and PPE for the maritime, offshore, and cruise industries. What began as a family business nearly 45 years ago has since gone worldwide from Rotterdam, Singapore, Houston, and, soon, Dubai. Still, we remain a family business of skilled, relentless innovators and expert partners to our longstanding clients.

Our immense product line is defined by its superior strength, style, and durability; our reputation, by competitive pricing and rapid delivery from stock. Leading products include coveralls, immersion suits, footwear, gloves, galley wear, and equipment and apparel for work in extreme temperatures. To us, superior protection and a proper fit are inseparable qualities.

No Compromises.

We are Scandia Gear. Maritime Outfitters since 1974.
Hearing loss caused by harmful levels of workplace noise is preventable. Consider the following to protect yourself:

1. **Intensity** - Lower the volume or dampen the sound.
2. **Distance** - Move away from the noise source.
3. **Duration** - Take regular breaks in quiet spaces, especially when noise levels exceed 85 dB.
4. **Defence** - Choose hearing protection to defend against specific noise hazards.

- **L1** protection for worksites with low frequency noise levels.
- **L2** protection for worksites with moderate industrial noise levels.
- **L3** protection for heavy industry and worksites with very high noise levels.

ScanSilence, our superior, GLOBAL hearing protection series, was developed and tested in close coordination with clients, their workforces, and hearing protection specialists.

Should you need help finding proper hearing protection, please contact us. We are more than happy to help.
Summer view on UV RADIATION

UV radiation is as dangerous to the eyes as it is to skin. Since UV radiation levels vary across the globe and are especially high near the Equator, vessel crews must be prepared. UV-protected safety eyewear is essential. To choose the right UV protection, please consider the following:

- Look for “100% UV” or “UV 400” product markings. Glasses with darkened lenses cause wearers’ pupils to dilate. If the glasses’ protection levels are insufficient, UV radiation will damage the wearers’ eyes and eyesight.
- Safety glasses and goggles should provide 360-degree coverage for the eyes and eye sockets. Be mindful of gaps above the eyebrows, at the temples, and above the cheeks.

Our range of lightweight safety eyewear provides UV 400 protection and superior anti-fog and anti-scratch performance in a universal fit.

Should you need help finding glasses or goggles to protect against the hazards of your work, please contact us. We are more than happy to help.
It is our mission to make the maritime, offshore, and cruise industries safer. To us, onboard safety is defined, in part, by convenience. Key decisions at critical moments should be made with an unerring trust in your onboard safety gear. Our new safety kits, designed specifically for the seaborne industries, ensure that all critical equipment is at hand.

Each kit contains a complete PPE solution, developed in accordance with our exacting quality requirements, and in compliance with the latest certification standards. Every kit’s exterior features a prominent logo, indicating the kit’s functions, and a list of the kit’s contents.

To create a personalised safety kit, choosing from our extensive product range, and for more product information, please contact our Sales team.

For additional details about our line of safety kits, please visit our website.
Rest and relaxation are critical. Our line of leisurewear provides much-needed comfort and ease. Designed for men and women and consisting of short- and long-sleeve polos and T-shirts, button-front shirts, and hooded jackets and sweaters in comfortable fabrics, this leisurewear is the mainstay of your off-duty hours.
Crews working with heat and flame must be protected fully and properly. We have been designing, manufacturing, and supplying onboard safety apparel and PPE for nearly 45 years.

Our extensive range of flame-resistant apparel – for normal to extreme weather conditions – provides you with superior protection against heat and flame and has made us an expert partner to workforces throughout the maritime and offshore industries worldwide.

GET PROTECTED AGAINST HEAT & FLAME
Looking for **SUMMER?**

In our workwear you are safe and well-dressed. To us, these are inseparable qualities. Here, in bright, lightweight, breathable materials, and compliant with our and the maritime industry's exacting quality and safety standards, is our 2018 Summer Collection. Wear it in good health and style.
In low light, darkness, or against a clear sky, high-visibility safety apparel (HVSA) helps those wearing it to be seen sooner and easier. We have upgraded our color blocking to HV yellow and navy. Industry-wide research indicates that yellow is the most visible colour and the colour our eyes process first; the colour's high light reflection value allows yellow to act as a secondary light source. Contrasted against navy, and with additional 3M striping, our updated range of safety wear in HV yellow is the ultimate in maritime and offshore protection.
We have spent nearly 45 years developing protective apparel and safety equipment for the maritime, offshore, and cruise industries. Our products have developed with these industries and their workforces, providing exceptional protection against the hazards they face.

Here, then, is our range of protection against the cold, rain, snow, fog, humidity, heat, flame spread, and electrostatic hazards; HV apparel; antibacterial galleywear for kitchen staff; and apparel designed specifically for welders. Everything is designed, manufactured, and distributed by us. To us, superior protection and a proper fit are inseparable qualities. These are our commitments. This workwear is the result.

OFF-DUTY

Relaxation during downtime is as important as intensity during work life. Our line of leisurewear helps provide that much-needed comfort and ease. Designed for men and women and consisting of short- and long-sleeve polos and T-shirts, button-front shirts, and hooded jackets and sweaters in comfortable fabrics, this leisurewear is the mainstay of your off-duty hours. Use this time and these clothes to relax and recharge. Do it for yourself and for your coworkers.

Choose task-specific gloves or mittens to ensure your hands are properly protected. Our extensive range of hand protection features designs and protections for the following categories: mechanical work, anti-vibration, antibacterial, hypoallergenic and disposable, resistant to oil, cuts, and chemicals, gloves that make work in the rain and cold easier, food preparation, dishwashing, and galley work, gauntlets for welding and for handling razor wire, gloves for cryogenic protection, insulated and aluminized gloves for firefighters, gloves with superior grip and impact protection, and gloves that protect against high voltages and electrical hazards. Every set of gloves is designed, manufactured, and distributed by us because no third party can match our quality standards. To us, superior protection and a proper fit are inseparable qualities. These are our commitments. These work gloves are the result.

- EN 420 (general requirements)
- EN 388 (4543) (standard safety gloves)
- ANSI 105:2011 cut level 5
- ANSI 105:2011 puncture level 4
- ANSI 105:2011 abrasion level 6
**ScanImpax**

**Impact Protection Gloves**

**Features**
- CE category II
- Seamless knitted liner
- TPV Impact protection
- PU foam dipped palm
- Extra long adjustable cuff
- Velcro closure for secure fit
- Palm: 100% multifilament polyurethane coated
- Back: 65% multifilament, 35% TPV
- Sales quantity: 12 pairs/polybag

**ScanKnuckles**

**X-treme grip Working Gloves**

**Features**
- CE category II
- Nitrile impact support at back
- Excellent grip on greasy and oily surfaces
- Highly flexible
- Liner: 100% polyamide
- Palm: 100% nitrile
- Back: 100% nitrile
- Sales quantity: 12 pairs/polybag

**ScanKinetic**

**Anti-Vibration Working Gloves**

**Features**
- CE category II
- Padded with anti-vibration foam in palm and fingers
- Reinforced anti-slip palm and fingertips
- Adjustable elasticized cuff
- Good dexterity
- Knuckle patch
- Palm: 100% goat leather with synthetic leather palm
- Back: 100% goat leather
- Padding: foam
- Sales quantity: 6 pairs/polybag

**ScanVolt 03**

**Rubber Insulating Electrical Gloves**

**Features**
- CE category III
- Protects against high voltages and electrical hazards
- Max. use voltage: 7500V, AC, RMS
- Highly flexible and comfortable to wear
- 100% latex
- Sales quantity: 1 pair/polybag

**ScanFix**

**Glove Clip**

**Features**
- Easy to attach
- Firm grip
- Safety release/ breakaway connector
- Nonconductive
- Noncorrosive
- Helps prevent glove loss and reduce hand injuries
- Sales quantity: 1 pcs/polybag

**ScanVolts 03**

**Rubber Insulating Electrical Gloves**

**Features**
- CE category III
- Protects against high voltages and electrical hazards
- Max. use voltage: 7500V, AC, RMS

**ScanVolts 03**

**Rubber Insulating Electrical Gloves**

**Features**
- CE category III
- Protects against high voltages and electrical hazards
- Max. use voltage: 7500V, AC, RMS
- Highly flexible and comfortable to wear
- 100% latex
- Sales quantity: 1 pair/polybag
We believe in total safety. Personal protective equipment (PPE) is the barrier between you and the hazards of your worksite. Our products are entirely compatible: head protection works together with eye protection, ear protection, breathing protection, and face protection.

All of these protections, with the addition of fall protection, are available here as Personal Protection. To us, Personal Protection is both a product category and an integrated approach to keeping all of you safe.
### ScanClear
**Safety Glasses**

**Features**
- Polycarbonate, clear, single lens (anti-fog, anti-scratch)
- Lightweight nylon frame
- Non-slip arms
- Soft, secure nose piece
- 180°C optically correct
- Adjustable arms and frame pitch create a specialized fit for a wide range of face types
- UV 400 protection
- Frame: Nylon & TPR
- Lens: Polycarbonate
- Sales quantity: 12 pairs per box

**Sizes**
- One size

**Colours**
- Black & Red

**Norms**
- CE Certified
- EN 166:2001-1 FT (personal eye protection)
- ANSI-Z87.1-2010 – Z87+ (standard for eye and face protection)

**Product code**
3510.01

### ScanGrey
**Safety Glasses**

**Features**
- Polycarbonate, brown, single lenses (anti-fog, anti-scratch)
- Lightweight nylon frame
- Non-slip arms
- Soft, secure nose piece
- 180°C optically correct
- Adjustable arms and frame pitch create a specialized fit for a wide range of face types
- UV 400 protection
- Frame: Nylon & TPR
- Lens: Polycarbonate
- Sales quantity: 12 pairs per box

**Sizes**
- One size

**Colours**
- Black & Red

**Norms**
- CE Certified
- EN 166:2001-1 FT (personal eye protection)
- ANSI-Z87.1-2010 – Z87+ (standard for eye and face protection)

**Product code**
3510.02

### ScanMirror
**Safety Glasses**

**Features**
- Blue polycarbonate lenses with mirrored coating (anti-fog, anti-scratch)
- Lightweight nylon frame with non-slip arms
- Protects against glare and provides high visibility in extreme conditions
- Soft, secure nose piece
- Ergonomic design, requires no adjustment
- 180°C optically correct
- UV 400 protection
- Frame: Nylon & TPR
- Lens: Polycarbonate
- Sales quantity: 12 pairs per box

**Sizes**
- One size

**Colours**
- Black

**Norms**

### PERSONAL PROTECTION

#### Respiratory protection

#### ScanRespi FFP1

**Single Use Half Mask Respirator**

**Product code** 4510.01

**Features**
- Protects against non toxic dust/mist, smoke and aerosols
- Lightweight
- Contoured fit
- Easy breathing/speaking
- 4-layer innovative filter technology
- Latex free
- Staple free, welded elasticized twin headbands
- Comfortable foam nose seal
- Sales quantity: 20 pcs/box

**Sizes**
- One size

**Colours**
- White

**Norms**
- CE Certified
- EN149:2001 + A1:2009 (filtering half mask)
- Assigned Protection Factor 4 (APF)
- AS/NZS 1716:2012 (respiratory protective devices)

#### ScanRespi FFP2/V

**Single Use Half Mask Respirator with Valve**

**Product code** 4510.02

**Features**
- Protects against non toxic dust/mist, smoke and aerosols
- Lightweight
- Contoured fit
- Easy breathing/speaking
- 4-layer innovative filter technology
- Latex free
- Staple free, welded elasticized twin headbands
- Adjustable nose bridge
- Comfortable foam nose seal
- Valve ensures extended wearing comfort by preventing the accumulation of moisture inside mask
- Sales quantity: 10 pcs/box

**Sizes**
- One size

**Colours**
- White

**Norms**
- CE Certified
- EN149:2001 + A1:2009 (filtering half mask)
- Assigned Protection Factor 10 (APF)
- AS/NZS 1716:2012 (respiratory protective devices)

#### ScanRespi FFP3/V

**Single Use Half Mask Respirator with Valve**

**Product code** 4510.03

**Features**
- Protects against non toxic dust/mist, smoke and aerosols
- Lightweight
- Contoured fit
- Easy breathing/speaking
- 4-layer innovative filter technology
- Latex free
- Adjustable elasticized twin headbands for tight fit
- Adjustable nose bridge
- Comfortable foam seal
- Valve ensures extended wearing comfort by preventing the accumulation of moisture inside mask
- Sales quantity: 5 pcs/box

**Sizes**
- One size

**Colours**
- White

**Norms**
- CE Certified
- EN149:2001 + A1:2009 (filtering half mask)
- Assigned Protection Factor 20 (APF)
- AS/NZS 1716:2012 (respiratory protective devices)

#### ScanMask 100/2

**Half mask with 2 filter connections**

**Product code** 4511.01

**Features**
- Lightweight ergonomic design
- Adjustable, double head straps
- Double filter connection
- Fitted with sturdy, comfortable facial seal
- Designed for use with ScanFilter 100/2

**Sizes**
- One size adjustable

**Colours**
- Black

**Norms**
- EN 140
- EN 148-1

#### ScanMask 330

**Half mask with single threaded filter connection to EN 148/1**

**Product code** 4511.02

**Features**
- Lightweight ergonomic design
- Adjustable, double head straps
- EN 148/1 filter connection
- Designed for use with ScanFilter DIRIN

**Sizes**
- One size adjustable

**Colours**
- Black

**Norms**
- EN 140
- EN 148-1

#### ScanSfera

**Full face breathing mask**

**Product code** 4512.02

**Features**
- Octopus designed adjustable head strap
- Polycarbonate, convex shield with high impact construction, allows user to retain 85% of their natural sight
- Frontal speech diaphragm enables communication
- Easy cleaning and replacement
- Includes half-mask
- Flame- and radiating heat-resistant
- EN 148/1 filter connection
- Designed for use with ScanFilter DIRIN

**Sizes**
- One size

**Colours**
- Black

**Norms**
- EN 136
- EN 148-1

#### ScanSelecta

**Full face breathing mask**

**Product code** 4512.01

**Features**
- Octopus designed adjustable head strap
- Shaped shield in polymethylacrylate
- Easy to replace and easy to clean
- Inside half mask included
- EN 148/1 filter connection
- Designed for use with ScanFilter DIRIN

**Sizes**
- One size

**Colours**
- Black

**Norms**
- EN 136
- EN 148-1

### Personal Protection

#### ScanSharp Apron

**Features**
- Total length 91 cm (35.8 in)
- Adjustable straps
- Comfortable fit
- Extra wide chest profile for excellent protection
- Exceeds cut level 5
- Applications: razorwire, beveling, glass handling
- Shell fabric: Superfabric® (USA)
- 57% Polyester, 43% Polyester
- Polyester mesh lining

**Sizes**
- One size

**Colours**
- Black/orange

**Norms**
- CE Certified
- EN 388:2016 (4542)
- ANSI105: 2016 (Cut resistance level A7)

**Applications:** razorwire, beveling, glass handling

**Product code:** 5900.17

#### ScanBison

**Splash Apron**

**Features**
- Protects against chemical liquids
- Impermeable to hydrochloric acid and sodium hydroxide
- Adjustable straps
- PVC with coated back side
- Total length: 98 cm (38.6 in)

**Sizes**
- One size

**Colours**
- Black

**Norms**
- CE Certified
- EN 467:95

**Designed to be worn in combination with ScanSharp Gauntlets**

**Product code:** 5600.02

#### ScanFoundry

**Leather Welding Apron**

**Features**
- Protection against welding hazards
- Adjustable straps at waist and neck
- Total length: 90 cm (35.43 in)
- Bottom width: 68 cm (26.77 in)
- Cowhide leather

**Sizes**
- One size

**Colours**
- Beige

**Norms**
- CE Certified
- EN 340
- EN 470-1

**Tested to EN 470-1 and EN 340**

**Product code:** 5800.06

#### ScanKryo Apron

**Cryogenic Apron**

**Features**
- CE Category III
- Protection against cryogenic liquids and gases (-200°C / -328°F)
- Adjustable at neck and waist
- Waterproof material
- Comfortable fit
- Total length: 110 cm (43.3 in)
- Extra wide chest profile for excellent protection
- 46% Polyurethane, 46% Nylon, 5% Polyester, 2% Spandex, 1% Rubber
- Sales quantity: 1 piece/polybag

**Sizes**
- One size

**Colours**
- Blue

**Norms**
- CE Certified
- ISO 13688:2013 (general requirements)
- EN 388:2016, 4242X (mechanical hazard protection)
- EN 511:2006, approved to flexing at extremely low temperatures (-50°C/-58°F) (cold protection)
- Tests conducted using liquid nitrogen (-200°C / -328°F)

**Designed to be worn in combination with ScanKryo Gauntlet & ScanKryo Shoecover**

**Product code:** 5900.18

#### ScanInferno

**MED-approved firefighter suit**

**Features**
- Designed for firefighters in the maritime sector in accordance with MED (Marine Equipment Directive) standards.
- Helmet with leather neck guard and retractable visor
- Heat-resistant, flame-retardant aluminized aramid fiber jacket, and trousers with suspenders
- 5-finger aluminized gloves
- Press stud front closures and fire-retardant safety flap backed by Velcro and Kevlar seams
- Nitrile rubber boots, S5, anti-static, anti-acid, anti-flame
- Storage bag

**Sizes**
- One size

**Colours**
- -

**Norms**
- MED

**Product code:** 5900.25

#### ScanExplorer

**Two-piece Firefighter Suit | Anti-static**

**Features**
- High collar with reflective strip
- Silicone-coated carbon Kevlar® shoulder and elbow protection
- Velcro zipper closure against heat and water damage
- Two “D” rings between pockets on chest and arms
- Two microphone holders and headlamp mounting
- Trousers with adjustable waistband and elasticized braces
- Abrasion, perforation, and cut protection at knees (Kevlar®)
- Waterproof inserts beneath zippers on trouser legs
- Absorbent barrier in hems of trouser legs
- Adjustable cuffs (Nomex®)
- Velcro strip for name badge
- Nomex® outershell 195 g/sqm
- Water and dirt-repellent fluorcarbon impregnation
- Breathable, windproof and waterproof inner membrane
- Two layer thermal lining (aramid/FR viscose and Kevlar® felt)

**Sizes**
- S - M - L - XL - 2XL - 3XL - 4XL

**Colours**

  - EN 13034/05-A1/09 Type 6B (chemical splash-proof clothing)
  - EN ISO 13982-1/04+A1/10 Type 5B (particle-tight clothing)
  - EN 14126/03 (protection against infective agents)
  - EN 1149-5/08 (anti-static)
  - Sales quantity: 50 pcs/box

### ScanKneePad
**Kneepads**

- **Features**
  - Soft and durable
  - High performance shock absorption
  - 100% polyethylene
  - Cut-to-measure
  - Sales quantity: per pair
- **Sizes**
  - One size
- **Colours**
  - Grey
- **Norms**
  - We recommend wearing these with the Scandia boiler suits, and trousers equipped for use with kneepads

### ScanElbow Pad
**Elbow pads with Velcro strap**

- **Features**
  - Body is made of EVA foam with polyester
  - PP high-impact cap
  - Adjustable straps with Velcro
- **Sizes**
  - One size
- **Colours**
  - Grey
- **Norms**
  - EN 14120

### ScanSupport 001
**Anatomic back support belt**

- **Features**
  - Back support belt for heavy lifting
  - Vibration resistant
  - Buckle closure
- **Sizes**
  - S / M - L / XL
- **Colours**
  - -
- **Norms**
  - -

### ScanSupport 002
**Back support belt**

- **Features**
  - Back support for heavy lifting
  - Elasticized
  - Velcro closure
  - Inclusive of braces
- **Sizes**
  - S / M - L / XL
- **Colours**
  - -
- **Norms**
  - -
### Streamlight HeadsUp Light

**Product code** 3020.60

**Features**
- Rubber strap and cloth strap included
- Inclusive 3 AAA batteries

**Colours**

**Sizes** One size (adjustable)

**Norms**
- CE approved
- Atex zone 0 Explosion proof

---

### Peli HeadsUp Light 2755

**Product code** 3020.71

**Features**
- Bright, lightweight head torch for harsh conditions
- High, low, and flashing modes
- Weather resistant casing which allows for fast and easy battery change
- Low battery warning
- Rubber strap included
- Safety approved for ATEX Zone 0
- Light output: 72 lumens
- Beam distance: 57 meters
- Inclusive 3 AAA batteries

**Sizes** One size (adjustable)

**Colours**

**Norms**
- CE approved
- EN 60079-0:2009
- EN 60079-11:2012
- EN 60079-26: 2007
- Atex zone 0 Explosion proof

---

### Peli Super Sabrelite 2000Z1 3C

**Product code** 5830.10

**Features**
- Produced in chemical-resistant, watertight, anti-shock material with rubber grip
- Xenon laser spot beam penetrates smoke and fog
- 4 x C cell alkaline
- Length: 28 cm
- ATEX approved
- Batteries not included

**Sizes**

**Colours** HV Yellow

**Norms**
- CE approved
- Atex zone 1 Explosion proof

---

### ScanWhistle

**Product code** 7000.16

**Features**
- Chromed steel
- Sales quantity: 12 pcs/box

**Sizes**

**Colours**

**Norms**
Demanding work requires a heavy-duty storage bag. Our range of bags includes holdalls, carryalls, seabags, travel bags, and duffel bags. These are indispensable under any name.

Our storage bags are made of water-resistant laminated tarpaulin for superior protection and durability. The bags feature reinforced bottoms, hidden backpack straps, large storage capacities by volume, and designs that allow for both quick access to the bags’ contents and for those contents to be kept secure. Ready for every maritime adventure.

Proper footwear on worksites is required for a reason. Slips and falls, exposure to chemicals, electrical accidents, and accidents caused by the improper use of tools and machinery are common causes of LTIs (Lost Time Injuries). With the right footwear these accidents are preventable.

Accordingly, our range of footwear complies with applicable norms and standards. Our footwear collection includes shoes and boots with shock absorbing heels, antistatic soles, resistance to acid, oil, and alkali, machine washable footwear for galley use, anti-perforation midsoles, insoles, and toecaps, antibacterial protection, heat resistance, ankle and anti-slip protection, as well as thermal and absorbent socks and insoles. In short, everything you need.

**S3 Offshore Safety Boot**

- **Features**
  - S3 boot
  - Upper in full grain water-resistant leather
  - Outlast® lining and thermal insulation regulates temperature
  - Lining insulates up to -20°C (-4°F)
  - Aluminium toecap
  - Profile anti-perforation midsole
  - PU anatomical foam insole
  - Lace-up with lace pocket at tongue
  - Easy side zip closure
  - Toe protection against 200 Joule impact
  - Anti-static
  - Shock absorbing heel
  - Advanced grip sole
  - Dual density PU-Rubber outer sole ensures extra durability
  - Acid-, oil- and alkali-resistant outer sole
  - Outer sole resists heat up to 300°C (572°F)
  - Ankle protection with absorbing heel

- **Please note:** The colour of the ScanCalverley has been updated with a change from Black/Blue to Black/Yellow. We will begin shipping ScanCalverley in Black/Yellow following the sale of our existing inventory.
## ScanTerry

**Product code**: 2510.04

**Features**  
- Ergonomic design for reliable support and fit  
- Excellent heat regulation  
- Comfortable Terry inside  
- 45% Merino wool, 45% acrylic, 10% polyamide  
- Sales quantity: 3-pack

**Sizes**: 35/38, 39/42, 43/46 (EU)  
3/5, 6/8, 9/11 (UK)  
4/6, 7/9, 10/12 (USA)

**Colours**: Navy

## ScanSilver

**Product code**: 2510.03

**Features**  
- Anti-odour & anti-bacterial  
- Terry sole for soft wearing comfort  
- 80% bamboo, 10% Nostate® pure silver, 7% polyamide, 3% elastane  
- Sales quantity: 3-pack (2 pair grey/back, 1 pair black)

**Sizes**: 35/38, 39/42, 43/46 (EU)  
3/5, 6/8, 9/11 (UK)  
4/6, 7/9, 10/12 (USA)

**Colours**: Grey / Black

## ScanBamboo

**Product code**: 2511.01

**Features**  
- Anti-odour  
- 4 times more moisture absorption than cotton  
- 80% bamboo, 15% polyamide, 5% elastane  
- Sales quantity: 3-pack

**Sizes**: 39/42, 43/46 (EU)  
6/8, 9/11 (UK)  
7/9, 10/12 (USA)

**Colours**: Black

## ScanOptal

**Product code**: 2510.05

**Features**  
- Antibacterial treatment  
- Top layer in genuine moss with latex bottom layer for moisture- and shock absorption  
- Suitable for use in all closed toe shoes and footwear

**Sizes**: 36 - 48 (EU)  
35 - 13 (UK)  
45 - 14 (USA)

**Colours**: Blue

## ScanShapeStrong

**Product code**: 2510.06

**Features**  
- Water repellent  
- Ergonomic footbed designed to increase hold and stability and prevent fatigue in wearer  
- Heel pad provides extra cushioning against impact  
- Charcoal layer protects against foot odours

**Sizes**: 36 - 46 (EU)  
3.5 - 11 (UK)  
4.5 - 12 (USA)

**Colours**: Black

## ScanEquitoria

**Product code**: 2510.09

**Features**  
- System of air cells in insole, backed by dual aluminum shielding, provides highly effective thermal protection  
- Non-slip shell prevents insole from shifting inside shoe  
- Suitable for use in all closed toe shoes and footwear

**Sizes**: 36 - 48 (EU)  
35 - 13 (UK)  
45 - 14 (USA)

**Colours**: -

## ScanKessel

**Product code**: 2510.10

**Features**  
- Wool insole with latex foam underside  
- Suitable for use in all closed toe shoes and footwear

**Sizes**: 36 - 46 (EU)  
35 - 11 (UK)  
45 - 12 (USA)

**Colours**: Brown
### ScanSokket

**Ideal for wear in rubber boots**

**Features**
- Controls moisture and protects against cold
- Soft interlayer creates a cozy, comfortable interior for rubber boots

**Sizes**
- 36/37 - 50/51 (EU)
- 3.5/4 - 14.5/15 (UK)
- 4.5/5 - 15.5/16 (USA)

**Colours**
- Blue

**Product code** 2510.08

### ScanKryo Shoecover

**Cryogenic Shoecover**

**Features**
- CE Category III
- Protection against cryogenic liquids and gases (-200°C / -328°F)
- Adjustable velcro closure backside
- Waterproof material
- Universal size and fit
- Wear over safety shoes to protect feet
- 46% Polyurethane, 46% Nylon, 5% Polyester, 2% Spandex, 1% Rubber
- Sales quantity: 1 pair/polybag

**Sizes**
- One size

**Colours**
- Blue

**Norms**
- CE Certified
- EN 388:2016, 4242X (mechanical hazard protection)
- EN 511:2006, approved to flexing at extremely low temperatures (-50°C/-58°F) (cold protection)
- Tests conducted using liquid nitrogen (-200°C/-328°F)

**Product code** 2510.27

### ScanShoeCover Xtra

**Disposable Shoe Covers**

**Features**
- Welded polyethylene
- Elasticated
- Size: 15 x 41 cm (5.9 x 16.1 in)
- Sales quantity: 2,000 covers/carton

**Sizes**
- One size

**Colours**
- Blue

**Norms**
- -

**Product code** 5700.07

### ScanLace

**Shoe laces for safety shoes**

**Features**
- Provides high tearing and abrasion resistance
- Design and material guarantee that elasticity remains strong
- Firm knots ensure excellent comfort for wearer
- Length: 90 cm (35.4 in)
- Sales quantity: 12 pairs/polybag

**Sizes**
- One size

**Colours**
- Blue

**Product code** 2510.12

### ScanSpike

**Anti-Slip Device**

**Features**
- Suitable for ice and snow
- Highly durable steel Tungsten Carbide studs
- Covers the entire heel for effective slip prevention
- Reflective 3M Hi-viz SOLAS strip for additional safety in dark conditions
- Leather velcro strap with extension of 7 cm (2.6 in)
- Cold resistance up to -50°C (-58°F)
- Freeze resistant TR rubber
- Sales quantity: per pair

**Sizes**
- EU: M (37/39), L (40/44), XL (45/50)
- UK: M (4/6), L (6.5/10), XL (10.5/14)
- USA: M (5/7), L (7.5/11), XL (11.5/15)

**Colours**
- Black

**Norms**
- CE Certified
- EN ISO 20344:2004 (methods for footwear)
- EN ISO 20345:2004 (safety footwear)
We have spent nearly 45 years developing protective apparel and safety equipment to confront and withstand the risks and hazards faced by crews in the maritime, offshore, and cruise industries.

Our range of lifesaving products have become essential components of the health and safety action plans for the workforces we outfit. Indispensable to these action plans is our line of immersion suits, designed for toddlers, children, and adults. Backed by universal maintenance kits and universal testing devices created in compliance with IMO guidelines, our line of immersion suits and range of lifesaving products are trusted necessities for crews worldwide.

FOOTWEAR SYMBOLS

SIP
SIP-designated footwear is evaluated using the same tests as SB footwear with additional tests assessing anti-static properties, penetration resistance (i.e., nail protection), and heel energy absorption (i.e., shock absorption).

S1
S1-designated shoe, antistatic, with closed, energy-absorbing heel. Designed for wear in dry working conditions.

S2
S2-safety-tipped shoe, antistatic, with closed, energy-absorbing heel and waterproof Shank (50 N). Designed for wear in wet working conditions.

S3
S3-safety-tipped shoe, antistatic, with closed, energy-absorbing heel and waterproof Shank, penetration-resistant intermediate sole. Designed to protect against penetration and for wear in wet working conditions.

S4
S4-safety-tipped boot, designed to protect against 200 J of impact, antistatic, with energy-absorbing heel.

S5
S5-safety-tipped boot, designed to protect against 200 J of impact, antistatic, with energy-absorbing heel and contoured, penetration-resistant intermediate sole.

SB
SB-designated footwear is evaluated through 40 compulsory tests including evaluating the tolerance in each shoe's toe-cap for impact up to 200 J.

SB-P
SB-P-designated footwear is evaluated using the same test as SB footwear with additional tests assessing penetration resistance (i.e., nail protection).

Composite toe-cap
Composite toe-cap protects against falling objects and compression, shock-resistant to 200 J and compression-resistant to 15,000 N. Composite toe-cap is ultra-light, ultra-resistant, thinner and more elastic than steel toe-cap. Composite toe-cap does not set off metal detectors like steel toe-cap, as they are non-metallic.

Steel toe-cap
Steel toe-cap protects against falling objects and compression, shock-resistant to 200 J and compression-resistant to 15,000 N. Composite toe-cap is ultra-light, ultra-resistant, thinner and more elastic than steel toe-cap. Composite toe-cap does not set off metal detectors like steel toe-cap, as they are non-metallic.

Aluminium toe-cap

PET woven midsole

Composite midsole
Composite midsole protects against sharp objects, penetration-resistant to 3,100 N. Composite Midsole is ultra-light, ultra-resistant, thinner and more elastic than steel Midsole. Composite Midsole does not set off metal detectors like steel Midsole do, as they are non-metallic.

Steel midsole
Protects against sharp objects, penetration-resistant to 3,100 N.

Ballistic midsole (Proflex)

PU / PU outersole

PU / TPU outersole

PU / Rubber outersole

PVC / Nitrillic Rubber outersole

A complete list of applicable EN standards is available on our website www.scandiaear.com
### Sizes & Measurement

#### Measuring instructions for coveralls, trousers and tops

Measurements should be taken by another person. Do not tighten the measuring tape too much. Person being measured should be wearing only underwear (i.e., no shoes).

1. **Chest/Bust width**
   - Measure under your arms around the fullest part of your chest/bust.

2. **Waist width**
   - Measure around natural waistline.

3. **Hip width**
   - Stand with your heels together and measure around the fullest part of your hip.

4. **Inner leg length**
   - Measure from top of inside leg at crotch to floor without shoes.

5. **Body height**
   - Measure straight from top of head to floor without shoes.

Measuring instructions for shoes

Step 1
Place a piece of blank paper taped to the floor on a hard flat surface. Stand up straight and press your heel against the wall. Have someone mark the longest part of your foot (referred to as “heel to toe length”) on the paper with a pen or pencil. Repeat the process with the other foot, as the right and left foot may differ.

Step 2
Use a ruler or measuring tape to measure the “heel to toe” distance you marked for each foot. Determine your own shoe size with the foot sizing chart underneath.
