SAFETY PPE FOR

OIL & GAS, MARINE/
OFFSHORE & SHIPPING
WHY CHOOSE US?

01
More than 30 years of experience and expertise in the safety business, deep understanding of industry requirements, familiarity with required solutions and knowledge

02
International Supply Chain Network at key locations to support the quick turn-around needs for Oil & Gas, Marine/Offshore and Shipping clients:
- Singapore
- Malaysia
- Korea
- Rotterdam
- Fujairah
- Houston

03
Represent more than 40 Safety PPE brands/makers, leveraging on their respective product expertise to form a comprehensive range of field tested products

04
Dedicated Account Manager to service needs such as product solutions, periodic reviews, new regulations, etc

05
Our International PPE Supply aims to bring our clients the following benefits:
- Standardization of Safety PPE supplied, prevent non-HSEQ compliant and poor quality products being used. Same approved products supplied via UR warehouses
- Fixed prices reduce time & effort needed for RFQs and gives better budget control
- Buyers’ ease of dealing with single UR Singapore entity instead of multiple/scattered offices to cover worldwide sailing vessels

RIDGELINE Cap Style 4-Point Standard Ratchet

• ABS material — Strong yet ultra-light for seemingly weightless protection
• Ratchet suspension - easy to adjust and allows the wearer to modify the fit while wearing hard hat
• Low profile design — Offers a low center of gravity for better balance
• Rear padded suspension — Provides additional level of comfort on the wearers’ neck
• 4-position harness points — Allows you to move the harness forward, backward, up or down - allowing for the most optimal position for ultimate comfort
• Replaceable sweat band — Padded fabric and polyurethane foam for all day wear
• Vented pressure pad — Keeps the straps in place providing an additional level of comfort
• Swinging hinge points — Allows you to find the most comfortable position on the back of your head

HDPE Frame Attachment for V-Gard Helmets, w Debris Control

- Used with V-Gard standard helmets only, to attach face visor to helmet
- Unique 3-point visor loading to fit and remove visors quickly
- Sloped design allows material to easily slide off the frame
- Works with or without helmet mounted earmuffs
- Perfect Compatibility with many half-mask respirators and more
- Non-metal construction for use in electrical applications
- Debris control creates tight seal between frame and helmet

Frame Attachment for Ridgeline & V-Gard Helmets

- Can be used with both Ridgeline and V-Gard standard helmets, to attach face visor to helmet
- Dielectric
- Works with or without helmet mounted earmuffs
- Adjustable while using with helmet mounted earmuffs

Frame Attachment for Ridgeline Full Brim Helmets

- Used with Ridgeline Full Brim Helmets only, to attach face visor to helmet
- Dielectric
- Works with or without helmet mounted earmuffs
- Adjustable while using with helmet mounted earmuffs

RIDGELINE Ratchet Headgear

- Constructed from durable nylon
- Ratchet adjustment for easy fit
- Pivoting action allows user to lift face shield while wearing
- Adjustable pegs will accommodate a wide variety of face shields
Polycarbonate Face Visor for V-Gard Frame, Clear, 8"X17"X.04"

- Designed for use with frame to attach onto V-Gard helmets
- Used for protection against impact and splash hazards
- Contoured towards face for closer fit and higher protection
- Superior UV protection
- Can be worn with helmet mounted earmuffs

Standards
- ANSI/ISEA Z87.1-2015
- CSA Z94.3
- EN 166 (2C-1.2 MSA 1B)
- AS/NZS 1337

Propionate Face Visor for V-Gard Frame, Clear, 8"X17"X.098"

- Designed for use with frame to attach onto V-Gard helmets
- Provides impact protection and also superior chemical splash resistance mainly against organic chemicals such as solvants
- Molded for superior optical quality
- Contoured towards face for closer fit and higher protection
- Superior UV protection
- Can be worn with helmet mounted earmuffs

Standards
- ANSI/ISEA Z87.1-2015

SITECORE Ventilated Safety Spectacles with Adjustable/Ratcheting Temples

• Built-in rubber nosepiece
• Flexible and ventilated temples
• Ratcheting temples
• Temples adjust to three different lengths
• H2MAX creates a high performing, superior anti-fog coating that is durable enough to withstand repeated cleaning without losing adhesion. It also adds a layer to the lens that is abrasion, chemical, and UV-resistant

UMBRA Polarised Spectacle

• CE certified
• 99% UV protection
• Polarised lens eliminates horizontal reflections and harsh glares
• Adjustable angle allowing for better fit
• Adjustable length for a secure and comfortable fit
• Retail bag which aids presentation for retail sales
• Individually packed for vending machines

The I-Force, designed based on feedback from users who work in some of the harshest conditions in the world, was introduced as a solution to intense fogging issues. From its H2X anti-fog coating, to its dual lens technology and sleek stylish look, the I-Force has taken sealed eyewear to the next level. By closely listening to the needs of our distributors and end users, Pyramex has once again introduced an innovative, solution-based product that will lead the industry for years to come.

The thermal system provides anti-fog protection in the worst weather conditions or extreme-temperature working environments. Pyramex went one step further and coated the outside of the lens with our H2X hydrophilic anti-fog coating for even more resistance to fogging, due to extreme temperatures. I-Force has an indirect vented foam carriage that provides maximum dust protection, as well as a sufficient airflow outlet for heat. Interchangeable temples and an elastic strap are included with each pair of I-Force.

The double lens system of the I-Force is different than a single lens goggle because it actually uses two lenses in one. An outer polycarbonate lens protects against the environment, while an inner lens is designed to prevent fogging by creating a pocket of air that helps to equalize the temperature between the heat of your face and the outside air of the climate.

The sporty, lightweight frame design of the I-Force is far from the bulky weight of a goggle. A dual pane lens provides the ultimate anti-fog performance by isolating the temperature difference inside & outside of this eyewear.
PRODUCT: PYRAMEX HARD HAT MOUNTED EARMUFFS
### Headband Earmuff, NRR 22dB

- NRR 22dB, for use in moderate noise environments
- Dielectric
- Soft, flexible and durable nylon headband
- Soft foam ear cups for comfort during extended usage
- Individually packaged

### Standards
- ANSI S3.19:1974
- NRR 22dB

### Hi-Vis Lime Headband Earmuff, NRR 26dB

- NRR 26dB / SNR 30dB, for use in high noise environments
- Low Profile Design
- Soft foam ear cups for comfort during extended usage
- Fold-away, padded headband for compact and comfort
- Individually packaged

### Standards
- ANSI S3.19:1974
- CE EN 352-2:2002
- NRR 26dB / SNR 30dB

### Behind the Head Earmuff, NRR 22dB

- Can be worn with hard hats, shields and other PPE
- Adjustable and durable neckband
- Large soft foam earcups
- Earcups tilt for optimum comfort and efficiency

### Standards
- ANSI S3.19:1974
- NRR 22dB
### Hygiene Kit for MSA 10061272 HPE Helmet Mounted Earmuff

- Foam cushions and inserts
- Works with Classic hearing protection helmet-mounted or headband products

### Hard Hat Mounted Earmuffs, Gray Cap Mounted Muff, NRR 27dB

- NRR 27dB, for use in high noise environments
- Dielectric
- Soft foam ear cups for comfort during extended usage
- Fits wide variety of hard hats, including Ridgeline & V-Gard Helmets
- Easily accessible while working, flip down over ears to use
- Individually packaged

\[Hearing Protection - Helmet-Mounted\]

- NRR 27dB, for use in high noise environments
- Spring design offers low pressure and a high level of comfort
- Three distinct wearing positions
- Easy to adjust the cups, even when wearing gloves
- Fits wide variety of hard hats, including Ridgeline & V-Gard Helmets
- Easily accessible while working, flip down over ears to use
- Individually packaged
Disposable Uncorded Earplugs, NRR 32dB, Box of 200 pairs

- Contoured fit disposable polyurethane earplugs
- Plug gently expands and self adjusts to all size ear canals
- Available in a convenient dispenser box
- Uncorded plugs – 200 per box / 10 boxes per case

Disposable Corded Earplugs, NRR 32dB, Box of 100 pairs

- Contoured fit disposable polyurethane earplugs.
- Plug gently expands and self adjusts to all size ear canals.
- Available in a convenient dispenser box.
- Corded plugs – 100 per box / 10 boxes per case

Reusable Earplugs, NRR 27dB, Box of 100 pairs

- Constructed of flexible rubber wrapped around a pocket of air for superb comfort.
- Three flanges of flexible rubber form a cozy seal for all size ear canals.
- Packaged in a convenient dispenser box – 100 corded pair per box

Reusable Earplugs, NRR 24dB, Box of 50 pairs

- Constructed of flexible rubber for superb comfort.
- Three flanges of flexible rubber form a cozy seal for all size ear canals.
- Packaged in a convenient dispenser box – 50 corded pair per box
Earplug Dispenser, NRR 32dB (Comes with 500 pair earplugs)

• Convenient dispenser holds 500 pair of disposable earplugs
• Quick and easy use for workers
• Durable plastic design has easy twist knob and catch basin to prevent plugs from falling to the ground
• 500 pair of disposable earplugs are included
• Can be wall mounted or use a freestanding display
• Replacement bag of earplugs is available for easy refill

Standards
ANSI S3.19:1974
CE EN 352-2:2002
NRR 32dB / SNR 36dB

LEIGHT SOURCE 500, Permanent, Mounted Earplug Dispenser

• Heavy-duty anodized aluminum withstands constant use
• Mount on wall for easy access
• Crank handle to dispense earplugs
• Ideal for large factories and process industries
• Holds 500 pairs of Howard Leight earplugs: Max, Max Lite, Laser Lite, Multi Max, Matrix and Quiet

MAX Uncorded Earplugs, NRR 33dB For LS-500 Refill

• The world’s most-used polyurethane foam earplug
• Bell shape delivers maximum in-ear comfort
• Contoured design easier to insert, resists tendency to back-out of ear canal
• Polyurethane foam enhances comfort, especially for long-term wear
• Smooth, soil-resistant closed cell-foam skin prevents dirt build-up
• Bulk refills for Leight Source 400 and Leight Source 500 Earplug Dispensers save time, waste and space

Standards

RESPIRATORY PROTECTION
N95 Cone Respirator, 20pcs per box

- 95% efficient respiratory protection in non-oil areas
- Large coverage providing a comfortable fit for the user
- Ultrasonically welded straps eliminate the need for staples which can irritate the skin
- Latex-free elastic head straps
- Soft, smooth outer and inner layer is comfortable on the skin, unlike other masks which can be uncomfortably rough
- Outer aluminum nosepiece holds shape and provides a proper fit during use
- Thick materials prevent collapsing and provide extended use
- Inner foam strip reduces the potential for eyewear fogging
- Maintenance-free construction and material offers low breathing resistance
- One size fits all

Respirator P2 With Valve and Active Carbon Filter, Box of 12s

- P2: Certified to AS/NZS 1716:2012 Respiratory Protective Devices
- P2 activated carbon disposable respirator for protection against nuisance level organic vapours, mechanically and thermally generated particles
- Lightweight cupped design for comfortable extended wear
- Dual Quicklock head strap for ease of donning and doffing
- ProValve exhalation valve for decreased breathing resistance and heat stress
- Nose flange for increased protection and facial fit
- Resealable bag for hygienic storage

Standards
42 CFR PART 84
**Powered Air-Purifying Respirators (PAPR) System**

- Provides superior protection with a 1,000 APF (Assigned Protection Factor)
- Two distinct audible alarms that notify users of low battery and low air flow. The sound from the alarms travels through the breathing tube directly to the user’s ear
- A long-lasting 10,000-hour brushless motor that is designed for long-term reliable use
- High-Efficiency Particulate Absolute (HEPA) and combination filters for every application: PAPRC3, PAPRC4, PAPRC5
- Two-speed blower unit for personalized airflow and cooling
- Filter locking tab that notifies the user that the filter is in place with both a visual indication and audible click
- Vinyl coated urethane belt or simply decontamination or a contoured belt made of closed-cell, chemically-resistant foam shaped to contour to the wearer’s back for extra comfort

Complete EVA PAPR system consists of three components:
1. EVA powered air respirator assembly with filter
2. Respirator hood, full face respirator mask or loose-fitting facepiece with suspension
3. Breathing tube assembly
*refer to below respirator hood and breathing tube assembly options

**20SICH Style Respirator Hood for PAPR**

- Respirator Hood - Tychem® 4000 (SL) .04” PETG For Hard Hat
- Threaded Connection (compatible with helmets)
- Breathing Tube - PA1BT Breathing Tube Assembly, Standard Length

**RT3 Style Respirator Hood for PAPR**

- Respirator Hood - Tychem QC hood, inner bib, sport neck cuff
- Breathing Tube - PA1BT Breathing Tube Assembly, Standard Length

EVART3 - PAPR System, EVA blower, Battery, Charger, Breathing Tube, RT3
Filter, HEPA, EVA (6 pack)

- Filter Type: Mechanical
- Protection: Particulates
- Efficiency: High Efficiency Particulate Absolute (HEPA) 99.99% vs. a mass mean 0.3 micron aerosol at 85 LPM

Filter, OVACHE, EVA (6 pack)

- Filter Type: Combination Mechanical & Chemical
- Protection: Particulates, Organic Vapors, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Chlorine Dioxide, and Hydrogen Fluoride
- Particulate Efficiency: High Efficiency Particulate Absolute (HEPA)
- 99.99% vs. a mass mean 0.3 micron aerosol at 85 LPM
- Media secured with urethane glue around perimeter

Filter, AM/FM/M/A/AG/HE, EVA (6 pack)

- Filter Type: Combination Mechanical & Chemical
- Protection: Particulates, Ammonia, Formaldehyde, Methylamine, Chlorine, Hydrogen Chloride, Sulfur Dioxide, Chlorine Dioxide, and Hydrogen Fluoride
- Particulate Efficiency: High Efficiency Particulate Absolute (HEPA)
- 99.99% vs. a mass mean 0.3 micron aerosol at 85 LPM
- Media secured with urethane glue around perimeter
**Fire Escape Smoke Hood**

- Atmospheric air-purifying negative pressure filtration device with a flame resistant hood
- Provides respiratory, head and eye protection to facilitate evacuation from hazardous fire and toxic gas atmospheres. Tested to protect for a minimum of 40/60 minutes from smoke and toxic gases
- Protects against Hydrogen Cyanide (HCN), Hydrogen Chloride (HCL), Carbon Monoxide (CO), Propenal (Acrolein)

**Emergency Escape Breathing Device, 15 mins**

- Life-saving appliance used for escaping an area with hazardous atmosphere such as fire, smoke, poisonous gases
- Provides personnel breathing protection and constant air supply of at least 15 minutes
- EEBD consists of cylinder with valve and reducer, supply hose, respirator hood and high visibility bag
- Breathing protection ≥ 15 min
- Material cylinder: steel alloy
- Cylinder: 3 L / 210 bar
- Low Volume Alarm: Audible

MI Self-Contained Breathing Apparatus

Most advanced, ergonomic and modular SCBA system - designed and developed side-by-side with firefighters. Design with M1 Control Module - easy to use personal alert safety system (PASS) with motionless sensor and integrated full colour display giving clear pressure and alarm indication.

Greater MODULARITY
- Easy to assemble, don and train
- Customise your fleet as per your needs
- Upgrades can be installed in the field

Enhanced HYGIENE
- Easy to clean and disassemble
- Dust and water repellant harness material reduces time for mechanical cleaning
- Entire SCBA is machine washable (no disassembly required)

Improved ERGONOMICS
- Backplate with innovative one-handed height adjustment
- Unique padded S-shape harness prevents pressure points and slipping
- Hip belt and backplate design distribute most of the weight on the hips
- Lightest SCBA with height adjustment on the market (less than 4 kilos)

Highest SAFETY STANDARDS
- Increased chemical resistance due to innovative material composition
- Enhanced safety for service technicians due to improved cleanability
- Reduced risk of snagging hazards due to guided hoses in backplate
- Greater visibility due to reflective harness elements

Reduced COST OF OWNERSHIP
- All components designed for longer life (10 year warranty)
- Reduced maintenance costs due to extended service intervals
- Easy to upgrade and service without tools

State-of-the-art COMMUNICATION
- Lightweight C1 headset easily attaches to the outside of the G1 mask
- Microphone design protects against surrounding sound
- Easy to attach/detach and share

PRODUCT: URSAFE VENTSHEILD UV PRO

PROTECTIVE WORKWEAR
VENTSHIELD UV Pro 100% Pre-Shrunk Cotton Coverall, Size S to 5XL

Design Specifications:
- 100% Cotton with UPF50+ UV protection and Oeko-Tex 100 Standard
- Waist Loops for holding of hand tools or attachment of tools-tethering devices for hands-free, safe operations
- Ventilated Expansion Back-flaps provide greater flexibility and cooling
- Velcro pocket slots for use with kneepads
- Adjustable velcro cuff straps for secure and comfort fit
- 2” High visibility reflective strips, one on each arm and leg and one over each shoulder
- 2-way YKK plastic zipper for main body
- Elastic waist for greater stretchability
- Loops (2cm (H) x 6.5cm (W)) for radio antenna on end of shoulder reflective tapes
- Action pleats on knee legions and buck of shoulders
- Strategic bar tack stitching on critical region
- Reinforced double stitching
- Standard hanger loop inside of coverall

Multi-pockets for increased functionality and zipper closure for higher durability and security:
- Two covered back pockets
- Two pen pocket on left sleeve
- One utility long pocket on right thigh area
- One heavy duty plastic zipped cargo pocket on left thigh area
- Two covered heavy duty plastic zipped chest pockets

CHEM NITRILE CUT Level 3 Cut Resistant Chemical Glove, Size 8/M to 11/2XL

- Sanitized® antimicrobial finish provides extra hygiene and freshness
- Chemical resistance delivered through the ATG® LiquiTech® technology platform
- Innovative fibers - we source our base ingredients to develop our own unique high performance yarns and fibers that offer cut protection whilst maintaining high levels of comfort
- Ultra lightweight synthetic coating combined with an industry leading super light seamless knit liner provides excellent comfort, sensitivity, fit and dexterity
- Tailored cuff keeps the cuff close to your hand so maintaining your fingers at the tip of the glove to maximize dexterity
- Micro-cup non-slip grip finish allows for a controlled and superior grip in oily and wet applications. The nonslip grip is only applied where it is actually needed - in the palm area - to ensure flexibility isn’t compromised

ULTRANITRIL 492 Green Nitrile Chemical Glove, 12.6”/32cm, Size 8 to 11

- Chemical Protection according to EN 374 AIKOPT standards
- Micro-Organisms Protection according to EN 374 standards
- Dexterity and comfort, due to the anatomical shape and the quality of the flock-lining
- Longer service life: excellent mechanical resistance (abrasion, perforation)

ULTRANITRIL 480 Green Nitrile Chemical Glove, 18.1”/46cm, Size 8 to 10

- Chemical Protection according to EN 374 AJKOPT standards
- Micro-Organisms Protection according to EN 374 standards
- Optimised service life: excellent mechanical resistance (abrasion, perforation)
- Excellent protection during intensive handling of high-risk chemical products
- Good grip on slippery objects, due to the embossed texture

ULTRANE O 420 Black Neoprene/Natural Latex, 12.2”/31cm, Size 7 to 9

- Chemical Protection according to EN 374 ALMNST standards, higher than standard Nitrile Gloves
- Micro-Organisms Protection according to EN 374 standards
- Freedom of movement, due to the supple quality of the neoprene and the comfort of the cotton flock-lining
- Good grip, due to embossed texture
BUTOFLEX 651 Black Butyl Glove, 13.8in 35cm, Size 9/10

- Ultimate specific chemical resistance, for very corrosive acids, ketones, esters and amine derivatives
- Chemical Protection according to EN 374 ABCILMNOS standards
- Micro-Organisms Protection according to EN 374 standards
- Unrivalled flexibility and dexterity
- In compliance with the requirement of the norm EN 16350, standard for protective gloves - Electrostatic properties: <1.0 $10^5$

- CE certified
- Waterproof with taped seams preventing water penetration
- Fully lined and padded to trap the heat and increase warmth
- Reflective tape for increased visibility
- 4 pockets for ample storage
- Concealed mobile phone pocket
- Internal chest pocket
- Two-way zip for quick and easy access
- Pack away hood for added functionality
- Inner ribbed cuffs for warmth and comfort

Contrast Bib & Brace - Lined, Yellow/Navy, Size S - 3XL

- Shell Fabric: 100% Polyester, 300D Oxford Weave with a stain resistant finish, PU Coated 190g
- Lining Fabric: 100% Polyester 60g
- Filling Fabric: 100% Polyester 170g
- CE certified
- Waterproof with taped seams preventing water penetration
- Reflective tape for increased visibility
- Lined for added warmth and comfort
- 6 pockets for ample storage
- Phone pocket
- Back patch pocket
- Double rule pocket
- Multiple utility pockets providing ample storage
- Elasticated back panel

SHIELD THERMO Premium Goatskin Leather Impact Lined Glove Size 7/S - 11/2XL

- Thermoplastic Rubber (TPR) Impact Protection meets EN 13594 impact standard
- Full coverage grid design TPR provides fingers, knuckles, metacarpals and pinch-point fingertip protection
- Hi-Vis Safety Yellow TPR enhances visibility and safety
- Dexterous superior goat split leather palm provides excellent slip and abrasion resistance
- Fleece liner traps warm air to help regulate your body temperature in cold working conditions, meets ENS1 Cold Protection Standards
- Padded palm absorbs and dissipates high-impact energy through the palm
- Comfortable stretch-elastic cuff creates easy on and off flexibility
- Reinforced double stitching across all seams for ruggedness and durability in harsh working conditions
- Machine washable leather

TARTOS RIG FURY Non-Metallic S3 SRC Safety Winter Rigger Boots, Size EUR 38 / UK 5 to EUR 47 / UK 12

• S3 SRC Winter Rigger Pull-up Boots
• Inner fleece liner provides warmth and insulation
• Upper in water-resistant embossed leather
• Non-metallic polymer/fiber toecap (50% lighter than steel) against 200 Joule impact
• Non-metallic anti-perforation Kevlar midsole against 1100 Newton penetration
• Thermal insulation lining (up to -30°C)
• High density foam insole for extra comfort
• Anti-static
• Shock absorbing heel
• Acid-, oil-, alkali-, oil- and heat-resistant dual density PU/Rubber outsole for up to 130°C
• High performance grip SRC on wet and oil surfaces

GAS DETECTION
**ALTAIR® Maintenance Free Single Gas Detector**

- Sensor options for CO, H2S, and O2
- Automatically records the last 25 alarm/test events
- No-miss triple alarm system includes bright flashing LEDs, piercing audible alarm, and an internal vibrating alarm
- Rubberized armor housing and one-button operation for maximum durability and simplicity

**ALTAIR® Pro: Oxygen O2 (Low: 19.5%, High: 23.0%), Black**

- Gas concentration (chlorine dioxide, hydrogen cyanide and phosphine) or percent oxygen displayed on a large, clear, backlit LCD
- Automatically records the last 50 alarm/test events while simultaneously recording peak gas readings or low O2 readings every three minutes in a periodic data log
- User can read data or change alarm set points by connecting unit to MSA Link via built-in IR communication port
- Adjustable alarm set points
- No-miss quad alarm system includes bright flashing LEDs, piercing audible alarm, LCD notification, and an internal vibrating alarm
- Rubberized armor housing and one-button operation for maximum durability and simplicity
- Easy alarm check, bump check, fresh air zero, and calibration
- Easily replaceable batteries and sensors

**ALTAIR® 2X, CO (25, 100), Charcoal**

- Fastest sensor response times, lowest calibration gas flow rate on the market
- > 4-year expected sensor life
- Bump pass: green LED flash every 15s, large on-screen checkmark
- Bump fail or expiration: red LED flash every 15s, no checkmark
- End-of-sensor-life warning and alarm
- Records 75 alarm events
- 150+ hours of periodic data (ALTAIR 2X and 2XP)
- Compatible with MSA GALAXY® GX2 Automated Test System and MSA Link Pro software
- Tough over-molded rubber armor
- Survives multiple 25-ft drops onto concrete
- Agency-certified dust- and water-tight IP67 construction
- Intrinsically-safe design

ALTAIR® 4XR Multigas Detector, (LEL, O2, H2S & CO), Charcoal Case, Global Charger

- Survives 25 drops from 4 feet (1.2 meters) (MIL-STD-810G 516.6 Transit Drop 3rd Party Certified)
- Can survive an incidental 25-foot (7.5-m) drop onto concrete
- Dust- and waterproof IP68 rating (2 meters for at least 1 hour)
- 4-year instrument & sensor warranty
- Bump and calibrate at a specified ‘Time of Day’ with your MSA GALAXY® GX2 Automated Test System
- MotionAlert option tells others that user has become immobile

Standards
Class I, Division 1, Groups A, B, C & D
CAN/CSA C22.2 No. 152

ALTAIR® 5X Detector Mono (LEL,O2,CO,H2S), (UL), Charcoal, Standard, Monochrome Display, 10’ Line, 1’ Probe

- Rugged overmolded polycarbonate housing provides unsurpassed durability, including ability to survive 10-ft. (3m) drop; IP65-certified
- Field-proven integral pump provides consistent gas flow, eliminating concerns of externally-attached components
- Most sensor response and clear times <15 seconds
- Rapid bump test gives results in less than 10 seconds for most common sensor configurations
- MotionAlert feature option tells others that user has become immobile
- Large buttons and bright display provide easy operation, even when users wear gloves
- Compatible with GALAXY® GX2 Test System and MSA Link Pro Software for fleet management
- Wireless bluetooth included standard

Standards
Class I, Division 1, Groups A, B, C & D
CAN/CSA C22.2

ASX, MONO, C5H12 LEL, O2, CO/H2S, CH4 100%, 0, UL, 0, NR, 0 (Infra-Red Model)

- Rugged overmolded polycarbonate housing provides unsurpassed durability, including ability to survive 10-ft. (3m) drop; IP65-certified
- Field-proven integral pump provides consistent gas flow, eliminating concerns of externally-attached components
- Most sensor response and clear times <15 seconds
- Rapid bump test gives results in less than 10 seconds for most common sensor configurations

- Wireless bluetooth included standard
GALAXY GX2 Automated Test System for Portable Gas Detector Calibration

- Color touch screen for ease of setup and viewing
- Extremely simple to use, testing starts automatically without touching a single button
- Simultaneous testing of up to ten instruments
- GALAXY GX2 System is optimized for use with MSA’s XCell® Sensors, provides up to 50% cost of ownership reduction
- At-a-glance indicators include low calibration gas volume, expiration warnings and test stand status
- MSA Link Pro Software provides proactive safety management, dashboard overview and total record-keeping
- 18 languages available for test stand and MSA Link Pro Software that simplifies usage and reduces training

Model RP Flow Regulator 0.25 LPM

- For use with calibration gas for manual calibration of portable gas detectors
- Calibration Tubing: polyurethane tubing for use with calibration equipment
- 0.25 LPM Fixed Flow Regulators: Fixed flow design provides constant and accurate flow to the gas detector

Model RP Gas Miser Demand Regulator, Range: 0.1-3.0 LPM

- For use with calibration gas for manual calibration of portable gas detectors
- Gas Miser™ Demand Regulator: Eliminates need to manually control valve opening for accurate calibration
- Designed for use with pumped instruments and supplies the exact gas flow for the instrument pump
- No ON/OFF valve is necessary because the regulator automatically turns itself off when not in use, simplifying the test and calibration process and saving calibration gas
- Calibration Tubing: polyurethane tubing for use with calibration equipment
