

## **Norfolk Bearings & Supply Co., Portable Information Document**

Norfolk Bearings was established in 1979 to service the industrial component needs of businesses throughout the Mid-Atlantic region. We now have a national presence, serving customers and ports across America. Our company represents over 200 different manufacturers and stocks over 10,000 items with many delivery options.

Norfolk Bearings' focus has always been on serving the customer, offering great service and competitive pricing. We also have an extremely knowledgeable sales staff. Our experienced sales team has excellent knowledge on all types of industrial equipment including all power transmission products such as bearings, electric motors, couplings, seals, chains, and belts. You can view our full line of products on our website [www.norfolkbearings.com](http://www.norfolkbearings.com).

Please contact our sales department with any questions you may have.

Wayne Fielding, Operations Manager  
wayne@norfolkbearings.com
