

NAVALIMPIANTI – TECNIMPIANTI GROUP

global leader in
DESIGNING
MANUFACTURING
SUPPLYING
INSTALLING
COMMISSIONING
various marine equipments
for
different types of vessels

WHO WE ARE

40 OVER YEARS OF HISTORY

ONE GROUP

12 BRANCHES IN 9 COUNTRIES

MORE THAN 15,000 SYSTEMS & EQUIPMENTS DELIVERED ALL OVER THE WORLD ON

140 CRUISE SHIPS

25 OFFSHORE SHIPS

40 MILITARY SHIPS

270 CARGO UNITS

15 MEGA YACHTS

COUNTLESS SPECIAL PROJECTS TAILORED ON OWNERS' REQUESTS

RESEARCH & DEVELOPMENT

Five Integrated in-house Technical Departments

**Cargo Handling
Access Systems**

**Automation
Electrical Systems**

**Hydraulic &
Machineries**

**Davits & Winches
Special Cranes**

**Light & Sound
Entertainment System**

*are engaged in Research & Development through which
designing & manufacturing of systems are upgraded constantly*

SOME OF OUR SPECIALIZED PRODUCTS & SERVICES

- ❖ Valve Remote Control and Tank Monitoring Systems
- ❖ Loading/Offloading, Transfer and Handling Systems with Platforms and Loading Platforms
- ❖ Cargo Access Equipments: Ramps, Elevators, Hatch Covers, Shell Doors, Embarkation
- ❖ Davits and Winches for LSA
- ❖ Skydome Sliding Covers
- ❖ Sound, Light and Entertainment Systems
- ❖ Special and Customized Projects for Offshore
- ❖ Inspections and Certifications of LSA

NAVALIMPIANTI SINGAPORE PTE LTD

OUR VISION

To be the top leader in supplying equipment and providing services with 'state of the art' technologies in South East Asia and Oceania

OUR MISSION

To be a renowned and preferred supplier and service provider for ship owners and builders in Marine and Offshore industries in South East Asia and Oceania

OUR STRENGTH

**Many Years of Experience
Sound Product Knowledge
Well Trained & Highly Skilled Technical Teams**

**Turn-key Projects
Innovative Systems
Refurbishment of Equipments
Any kind of Engineering Activities
from Designing to Maintenance
and
After Sales Services**

SUPPLY

Lifeboat Davits

Valve Remote Control Systems

Bow / Ramps, Inner Doors & Shell Doors

Marine Spare Parts

Weather Deck Lubrication

Lighting & Electrical Systems

Customized Special Applications

Equipments And Systems For Liquid & Dry Cargo Ships

Cargo Access Equipments Including Cranes And Elevators

SUPPLY

Cargo Access Equipments

- ▶ Bow Doors/Ramps & Inner Doors
- ▶ Shell Water-tight and/or Weather-tight Doors
- ▶ Internal Ramps, Deck Covers and Doors
- ▶ Hoistable Car Decks & Car Deck Ramps

Cruise Vessel Equipments

- ▶ Shell Doors
- ▶ Tender Embarkation Platforms
- ▶ Baggage Loading Platforms, Quay Ramps and Monorail Cranes
- ▶ Skydome
- ▶ Embarkation Davits
- ▶ Windows Washing Machine

Lighting & Electrical Systems

- ▶ Power Distribution
- ▶ Main Switchboards
- ▶ Emergency Shut Down System
- ▶ Public Address System
- ▶ Fire Detection System
- ▶ Low Location Lighting System

Our past experiences enable us to stay capable, competitive, reliable and able to provide maintenance for the entire operational life of the ships

We design and fabricate Cargo Access Equipments for different types of vessels based on customers request. All equipment meet the most recent international safety regulations and the highest level of efficiency for easy operations

We provide Lighting Systems onboard modern cruise vessels and yachts so as the guests and passengers enjoy a world of holistic comfort with dimming effect, amusing, mesmerising fantasy and entertainment

SPARE PARTS

Being a designer and a manufacturer Navalimpianti –Tecimpianti Group vision and thinking of the Spare Parts Service is focused on product life and on our good reputation with Customers

Our Company's commitment is

***MAINTAIN OUR SYSTEMS AT THE OPTIMAL CONDITIONS
FOR THE WHOLE SHIP LIFE***

For this reason we provide only original spare parts or alternative parts technically qualified for the specific use without impair system performances

SPARE PARTS

Extreme environment equipment lubrication

Weather deck equipment are submitted to one of the most aggressive and corrosive ambient existing in our world. The combination of salt water, solar irradiation and extreme and quick temperature variation create a critical environment for any machinery that traditional lubricant cannot face if not continuously checked and renewed.

Navalimpianti is the **EXCLUSIVE DISTRIBUTOR** for the maritime industry of a *new generation of lubricants made in Canada*

SPARE PARTS

New generation of lubricants for weather deck equipment

FOR WIRES

LUBRICANTS FOR CHAINS AND CABLES

Descriptions

The polar nature of Chain & Cable Lube's microcrystalline wax-based solution allows the product to "creep." This action causes the lubricant to penetrate into the internal mechanisms of drive chains, sprocket teeth and seats. CCL also protects against premature wear between steel cable strands.

Applications

- Drive chains
- Drag chains
- Open gears
- Steel cables

Advantages

- Prevents oxidation due to excess humidity, water and high salt content
- Noise reduction
- Contains no heavy metals thus preventing arcing when in contact with live wires
- Does not attract dust or airborne contaminants
- Prevents stretching of drive chains
- Dielectric rigidity up to 16.5 kV

FOR BUSHING

IMPACT TACKY GREASE

Description

Top 5 is a grease that resists to impacts because of its excellent tacky properties. It has excellent adhesion to metal, even under extreme water wash conditions and high temperature.

- Transport
- Heavy industry
- Mining
- Quarry
- Construction
- Golf and ski machineries
- Food equipment

Applications

- Resists sand and contamination
- Does not contain heavy metal
- Does not leak from the joints
- Excellent anti-wear properties
- Clings to hot metals
- Resists a wide range of temperature
- Does not melt
- Does not wash out
- Contains rust inhibitors
- Approved standard H2 ACIA /L125
- No. NSF 137390

FOR BEARINGS

SUPERIOR ALL-PURPOSE GREASE

Description

S-350 high performance calcium sulfonate grease is multipurpose grease suitable for industrial, automotive and marine applications. Offers an excellent shear stability and very high load carrying properties. Resists water, salt water, oxidation, corrosion and heat. Contains no heavy metals or other environmentally undesirable additives.

Applications

- Automotive chassis and bearings (NLGI GC-LB)
- Axles
- Sliding and thrust bearings
- Steel mill rollers
- Crusher bearings
- Agricultural equipment
- Wheel bearings
- Antifriction bearings
- Conveyors
- Construction equipment
- Electric motor bearings
- Ski and golf equipment
- Dielectric strenght ASTM D149, D150, D257

Advantages

- Excellent shear stability
- Very high load carrying properties
- Resists water and salt water
- Resists corrosion and oxidation
- Wide temperature range -40°C (-40°F) to 386°C (726°F)
- Food approved standard H-2, CFIA
- Registration No.: /L 125

METALIZING:

Long Term Corrosion Control Savings in Material, Labor, and Maintenance Costs

The process for Metalizing was developed for large scale projects in the field applied under very severe conditions, and is used to protect naval and commercial ships, bridges, steel structures, chemical tanks, pipelines, boiler tubes, concrete structures, piers, offshore rigs, stacks, and a variety of other assets

AUTHORIZED APPLICATOR

SPARE PARTS

WHY

should Metalizing be used as a corrosion control method?

- Life cycle cost savings
- A metalized coating is harder and stronger than paint
- No volatile organic compounds
- No cure time, no mixing, no hazardous waste, no shelf life limitations
- If a paint coating is required, it will adhere to the thermal spray without any surface preparation
- Metalizing is not affected by UV exposure
- Zinc or aluminum metalized coatings anodically protect the underlying steel by sacrificial mechanisms
- Our process uses electricity, air, and pure alloys

- [illegible]

SERVICE

Lifesaving Inspections And Load Test

Availability of spare parts, testing equipment and certified measuring instruments to achieve optimal level of safety

Inspections of original or third party equipment :

- 1 Year
- 5 Years

Emergency repair

Load test

Descent line test and Certification

Boat and raft inspection and overhaul

Release gears inspection and overhaul

Training and Certification of Service Engineers from all Countries

OFFSHORE

We offer a wide range of custom made Offshore products:

- ❖ **Plv High Speed Pipe Deck Receivers, Handling And Storage Combined Systems**
- ❖ **Design And Fabrication (Turn Key) Of Accommodation Prefabricate Units**
- ❖ **Esd And Combined Fire & Gas Systems For Fpso And Rigs**
- ❖ **Remote Control Valves System & Cargo Monitoring Automation Systems**
- ❖ **Divers Cranes And Special Cranes**
- ❖ **Davits (Free-fall Outrigger), Davits Winches With Twin Braking System And Hydraulic Lowering Speed Control**
- ❖ **Lifesaving Equipments**
- ❖ **Heavy Duty Customized Drag Chain In Partnership With Dav Spa**

NAVY

Navalimpianti is a prominent supplier to Italy, Spain, France, Germany, India, China and US Navy of advanced marine equipments since 1975.

Our equipments and systems meet local and international Military Standards & Regulations.

Navalimpianti has been designing, supplying and installing Cargo Access Equipments such as external and internal ramps, doors, covers, airplane and ammunitions elevator to facilitate transportation and storage of different wheeled cargos of military machineries, vehicles, trailers , with greater features of flexibility and safety.

CERTIFICATION AND ACCREDITATIONS

We are authorized and approved by
Classification Societies to perform
Inspections & Certifications inclusive of:
