## COMPANY OVERVIEW

STr's Marine Department is a team of experienced professionals, working on comprehensive support of ship-owners, shipyards and servicing companies in terms of deliveries of spare parts and ship equipment.

Our partners are not only the companies from European Union, but also from eastern and north coast of Russia, Vietnam and from the Caspian Basin. Apart from ship operators, we also service many fishing vessels as well as fleets and specialist installations used in exploration of seabed resources. We are constantly expanding in search of new markets and possibilities.

STr is family owned enterprise based on solid foundations, operating in two major areas maritime trade and CNC metal machining.

## OUR HISTORY

- 1988 - Company STr was found in Szczecin as a trading company;
- 1998 - Expansion of operations to the steel elements production business, based on a modern CNC machine park;
- 2001 - Obtaining Management System Certificate: ISO 9001;

## FEATURES AND BENEFITS

### Certainty of good quality.

Our spare parts offer relies on original parts or their replacements of proven quality. Our partners are always informed whether a given part is original and where it comes from. As we aim at long term relationship with our partners, we do not compromise on the quality of the parts we supply.

### Lower service costs.

Many fleet owners prefer purchasing high-quality replacements. Good technical parameters of our parts mean that the equipment doesn't cause any problems during use. Long term cooperation with many manufacturers enables us also to offer original parts at good prices.

### Support of a team of experienced professionals.

Our team consists of people with many years of experience in the industry. We have taken part in many interesting projects, including repairs, services, design works and modernizations. This means that we can really understand the needs of our partners. We are glad to share our experience.

### A solid approach of a company with more than 25 years of tradition.

As a company with family roots and based on family values, we want to work in such a way that our partners can really rely upon us. We are always serious about our commitments and the needs of our customers are of utmost significance to us.
