

# Spare parts overview

Original boiler system spare parts in stock

# Spare parts for global delivery

Alfa Laval has the leading service organization for boiler systems and related equipment on marine vessels and floating production systems. We established our first dedicated service stations for Alfa Laval Aalborg products over 30 years ago, and we have continuously expanded our service network.

Alfa Laval offers original spare parts and consumables for

- Boiler systems (steam and hot water)
- Inert gas systems
- Thermal fluid systems
- Exhaust gas economizers and waste heat recovery units (after diesel engines and gas turbines)
- Burners (oil and gas)
- Burner and safety management systems
- Control systems

We possess full knowledge and documentation concerning all products and systems delivered by Alfa Laval. In combination with our extensive service experience, this means that our local service stations quickly can identify the necessary parts and provide remote assistance if needed.

To the right is an overview of the products, brands and Alfa Laval Aalborg models for which we offer OEM spare parts. In total, we keep 20,000 original spare parts in stock. The parts are stocked at strategically located service stations and can be shipped within 24 hours to any corner of the globe.
