

MSA - THE SAFETY COMPANY

AirHawk II Air Mask (SCBA)

This air mask is a pressure-demand apparatus, designed to maintain a slight positive air pressure inside the facepiece during inhalation and exhalation. It is built from six major components.

Facepieces

Two facepieces available. Both have a one-way check valve (to prevent exhaled air from entering the mask-mounted regulator) and a molded polycarbonate lens.

Ultra-Elite Facepiece also has a mechanical speaking diaphragm for short-range communications, and five adjustable rubber straps for head comfort, security, and safety.

Advantage 4000 Facepiece has a four-point silicone head harness for comfort and security.

Carriers and Harness Assembly

Large side handles and a central attachment point to pull workers to safety in rescue scenarios. Backplate is made of glass fiber-reinforced thermoset plastic. Harness components are available in nylon or high-strength Kevlar.

The cylinder band is available in nylon or Kevlar and is secured by an adjustable nylon buckle, allowing the band to retain various cylinder sizes.

Cylinders – 2216 psig

First-Stage Regulator

The PR-14 regulator has a Teflon-coated anodized valve body and 14 replaceable parts.

Mask-Mounted Regulator

Integrated shutoff prevents cylinder air loss when disconnecting the second-stage regulator from the facepiece. Regulators can be maintained without special tools.

End-of-Service-Time-Indicators (EOSTI)

An audible alarm – an air-actuated, continuously ringing warning bell – sounds automatically when the air-supply cylinder reaches 25% of its rated service life.

AirHawk II (2216) SCBA with nylon harness with chest strap

Eight standard models shown below.

Ultra Elite, Medium Hycar Facepiece

Description	Part No.
Rubber head harness, 30-minute aluminum cylinder	
With hard case	10095800
Without case	10095801
Speed-On head harness, 30-minute L30 Stealth carbon cylinder	
With hard case	10095802
Without case	10095803

Advantage 4000, Medium Hycar Facepiece

Description	Part No.
Net head harness, 30-minute aluminum cylinder	
With hard case	10095804
Rubber head harness, 30-minute aluminum cylinder	
Without case	10095805
Net head harness, 30-minute L30 Stealth carbon cylinder	
With hard case	10095806
Without case	10095807
