

## MSA - THE SAFETY COMPANY

## SELF-CONTAINED BREATHING APPARATUS – FireHawk M7 Air Mask

This mask is built on a modular air mask platform and exceeds NFPA 2007 requirements.

- Standard equipment includes: Facepiece cross-contamination check-valve, thermal alarm, time-remaining display, wireless programming and network, front & rear buddy lights, auto-dim HUD (heads up display), large drag-carrying handles, stainless steel cylinder band with cam-lock system.
- The auto-dim HUD, power module and control module are encased in a high temperature, impact-grade polymer, providing protection against impact and water ingress.
- Electronics enclosures are permanently socially welded to a hermetic standard to ensure a consistent water-tight seal.
- Mechanical speech diaphragm provides clear communications. Diaphragm is backed by an electronic amplifier with an internal facepiece microphone.
- Emitter exceeds 95dB.
- Weight with empty H-30 cylinder (including batteries): 20.5 lbs.
- Battery life of electronics: >1 year with frequent use (standard alkaline cells)
- Data-logging – most recent 25-hours-of-use information

To Order: Choose the letter or numeral that corresponds to desired option from each list below to create order number.
