

MSA - THE SAFETY COMPANY

The Quick-Fill® System

Lets users refill and transfill air cylinders while an SCBA is being worn, without removing the air cylinder, even in IDLH atmospheres.

Use this option to:

- Fill an SCBA cylinder from a mobile compressor or cascade system in less than a minute.
- Transfill between two cylinders, providing an Emergency Breathing System.
- Extend the air supply over longer durations, using a remote compressed-air source.

Because performance is not affected, the air masks retain NIOSH certification during use of the Quick-Fill System.

Air masks compliant to NFPA standard have the Quick-Fill URC fitting located by the air cylinder's low-pressure audible warning device.

A Quick-Fill hose with a quick-disconnect connects the air source to the adapter for air transfer.

Replacement Parts for the Quick-Fill System

<i>Description</i>	<i>Part No.</i>
EBS hose package, includes 3-foot emergency transfill hose in Kevlar pouch	10111642
Kevlar pouch	10111404

Cylinders

Featuring an outerwrap made of lightweight, high-performance carbon fibers, which reduces cylinder weight by two to six pounds when compared to fiberglass-wrapped cylinders and as much as ten pounds when compared to aluminum cylinders.

Cylinder Type (Cylinder & Valve)	NIOSH Service Life Rating	Pressure (psig)	Weight* (Empty)	Part No.
L-30	30-minute	2216 psig	7 lbs. – 9 oz.	807586
L-30+	30-minute	3000 psig	9 lbs. – 14 oz.	816115
Fiberglass Hoop-Wound	30-minute	2216 psig	13 lbs.	469619
Aluminum	30-minute	2216 psig	18 lbs.	809872
H-30	30-minute	4500 psig	7 lbs. – 3 oz.	807587
H-45	45-minute	4500 psig	10 lbs. – 9 oz.	807570
H-45 Low-Profile	45-minute	4500 psig	10 lbs. – 6 oz.	10035644
H-60	60-minute	4500 psig	12 lbs. – 11 oz.	807588

* All weights shown are approximate figures.
