

MSA - THE SAFETY COMPANY

Accountability System

Combines computer software with a high-performance radio module. Transmits from user's air mask to a base station. Displays a full array of audio and visual information (low flow of air from air cylinder to user, battery low, user not moving, etc.) for up to 100 users within a one-mile line-of-site.

Accountability Base Station Kit (includes software, antenna kit, USB cable and 8-24 volt power cable)	10072240
M7 Control Module Reader / M7 ID tag writer	10083876
M7 ID tags	10083875
Antenna kit	10075756
USB cable	10063880
8-24 volt, power cable	10049410
Wall mount power cable (not included in 10072240 kit)	10047342

The ExtendAire™ System

The ExtendAire System can be used as both an emergency breathing system as well as a dual-purpose device to allow firefighters to quickly and easily connect to an air line.

Description	Part No.
ExtendAire Airline Hose	812958
40" Rescue Hose	812973

Air-Line Accessories for Dual-Purpose Air Masks

The following components are used to assemble a cascade system, which consists of a bank of respirable-air cylinders (user-supplied) that supply a flow of air to dual-purpose air masks, or a stand-alone air-line system. Air-supply hoses are listed separately below.

Description	Part No.
Male Air-supply Hose Adapter for Foster Quick Disconnects (for PVC hose)	55716
Union Adapter (required to attach male adapter 55716 to end of air-supply hose, for PVC hose)	69542

Air-Supply Hose

Available in smooth, reinforced, lightweight polyvinylchloride and chemical-resistant black neoprene in a variety of sizes.

Length	Material	Hose Coupling	Part No.
8 ft.	Neoprene	Brass	481071
15 ft.	Neoprene	Brass	455020
25 ft.	Neoprene	Brass	455021
50 ft.	Neoprene	Brass	455022
8 ft.	PVC	Brass	481051
15 ft.	PVC	Brass	471511
25 ft.	PVC	Brass	471512
50 ft.	PVC	Brass	471513
