## Respirators

### Series 420 Half-Mask Respirator

This respirator is designed for exceptional comfort and fit, easy donning, and low cost of ownership. It has a patent-pending over-molded one-piece silicone facepiece, helping to eliminate possible leak paths which are sometimes present in half-mask respirators. Rigorous testing ensures that the mask meets the newly proposed NIOSH fit test panel.

- Drop-down harness position allows respirator removal while retaining head protection.
- Patent-pending lock-down harness position allows personal fit without further user adjustments
- Latex-free
- Includes only three major components
- Low breathing resistance

Series 420 Respirators include facepiece, head cradle, elastic straps, buckle set, yoke with lever, two (2) inhalation valves and one (1) exhalation valve. Cartridges for the Series 420 Respirator are shown on following page.

<i>Description</i>	<i>Part No.</i>
Series 420, small	10102182
Series 420, medium	10102183
Series 420, large	10102184

### Series 3000

A full-face respirator that meets NIOSH and EN standards, featuring wraparound lens combined with a soft, pliable silicone facepiece. The faceshield fit is based on facial measurements from more than 8,000 people. The 3000 uses the same cartridge and filter as the 200LS respirator.

The respirator design allows lower breathing resistance and includes a standard nose-cup that reduces fogging in low temperatures or high humidity conditions. The facepiece lens has a scratch resistant coating that is optically correct and meets all requirements of ANSI Z87.1 eye protection standard.

Pre-adjustable straps give a consistent fit. The preset upper straps prevent uncomfortable snags and provide a tighter, more secure seal. A European-style harness, which is put on like a catcher's mask, is also available.

### Facepieces

<i>Description</i>	<i>Small</i>	<i>Medium</i>	<i>Large</i>
Style 3200 Twin Port Respirator, with rubber harness	10028996	10028995	10028997
Style 3200 Twin Port Respirator, with elastic harness	10031340	10031309	10031341
