ABSOLUTE SPILL SOLUTIONS

OILEX is an organic binder which is able to absorb all kinds of oil, fuels, chemicals, etc. very quickly and effectively. It is universally applicable on water or ground and is used to combat impurities and environmental catastrophes.

ABSOLUTE ORGANIC

OILEX is a hydrophobic biogenic sediment 100% natural fibre without any additives.

- > It is anti-toxic for humans and nature.
- > It is completely biodegradable.
- > It guarantees no lasting contamination of soil or (ground-) water.

Certified by the German Institute for Environmental Hygiene and Toxicology (Hygiene-Institut des Ruhrgebiets) in Gelsenkirchen, Germany.

ABSOLUTE EFFICIENCY

- > Universally applicable.
- > Potent on all surfaces.
- > Immediately effective.

Certified in terms of its effectiveness: Material Testing (Materialprüfungsamt Nordrhein- Westfalen) in Dortmund, Germany.

PERFORMANCE

- > OILEX has a degree of absorption of up to 100%
- > It can hold up to a 3-fold of its own weight.
- > It can be reused several times until it is completely saturated.
- > With only 134 g/ltr, OILEX is extremely lightweight, economical and easy to handle.
- > It encloses absorbed substances even under pressure.
- > It is buoyant and hydrophobic.

For applications on wet surfaces the performance of OILEX is even higher.

WATER

OILEX is light and buoyant. Therefore, it works well on calm but also turbulent bodies of water. Spilled substances are absorbed immediately and completely. Even saturated OILEX does not sink down to bottom and can easily be suctioned off.

LAND

OILEX is 100% organic and absolutely non-toxic. In case of contaminated soils, OILEX can be spread out and mixed in; it thereby absorbs the spilled substance and can make a contribution to the re-cultivation of the soil.

OILEX Pads

OILEX pad mini (20 x 30 cm)
OILEX pad 3 chambers (40 x 60 cm)
OILEX pad 6 chambers (80 x 60 cm)
OILEX pad 9 chambers (120 x 80 cm)
OILEX boom 150 (150 cm long, 13 cm Ø)

OILEX drum PAD 60

(37 cm Ø for 60 ltr drum)

OILEX drum PAD 200

(57 cm Ø for 220 ltr drum)

OILEX Binding Agent

50 ltr bag / approx. 7,5 kg
10 ltr bucket / approx. 2,0 kg
1 ltr bag / approx. 0,15 kg
