

WORLD WIDE METRIC
PIPE REPAIR CLAMP

When seconds count...count on the Rapid Repair Clamp!

The Rapid Repair Clamp Pipe Repair System is the fastest and easiest way to temporarily repair pipe leaks and bursts. The self-contained design allows for installation in less than 60 seconds by one person, without the use of any tools.

Marine-grade stainless steel construction provides a super-tight seal for water, steam, gas and most types of chemicals and petroleum. The unique design makes it ideal for many applications such as marine, oil and gas, plumbing, and emergency services.

The Rapid Repair Clamp is available in four widths and a variety of diameters, fitting pipes ranging from 38mm – 930mm (1.5" – 36"). Best of all, it is reusable and can be applied to pressurized pipes up to 20 bar, making it ideal for a variety of applications.

Extensive testing by the DSTO and Royal Australian Navy found the Rapid Repair Clamp to be five times faster to install than standard pipe repair clamps.

Pipe Diameter (Metric/Imperial)	Clamp Width	Effective Seal Width	Cam Lock Handles	Maximum Pressure	Order Code
38-75mm/1.5-3"	70mm/2.76"	40mm/1.5"	Single	20 Bar 300 PSI	RRC-38-75-70
75-100mm/3-4"					RRC-75-100-70
100-220mm/4-8"					RRC-100-220-70
220-350mm/8-14"					RRC-220-350-70
350-500mm/14-20"					RRC-350-500-70
