

EATON CROUSE-HINDS PAULUHN

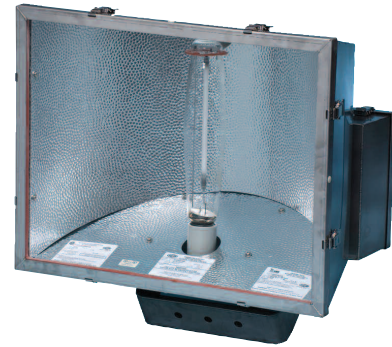

WATERTIGHT VAPORPROOF HID FLOODLIGHTS ENCLOSED & GASKETED FOR HAZARDOUS LOCATIONS

U.L. 1598A, 844 NEMA 4X U.S.C.G. IP66 ABS – Class I Division 2 Groups A, B, C & D

NHIDLS4IB

NHIDLS10IB

CONSTRUCTION: The lens frame and mounting brackets are made of 316 stainless steel. The housing is available in 316 stainless steel, natural finish for a completely stainless steel fixture. Also available in marine grade aluminum, polyester powder coated or brass. Lamps are not included.

BALLAST: The ballast supplied is a high power factor, multi-tap, 120/208/240/277V 60 Hz. Other voltages are available as options.

FEATURES: Eight positive-locking spring loaded, stainless steel hinged latches for easy access to the interior components. By changing only four screws on the two hinges, the unit can be opened in any of four directions.

LENS: The high impact tempered glass lens is thermal and shock resistant.

GASKETS: One piece, molded, high temperature silicone gasket for long lasting watertight seal.

REFLECTOR: Highly specular hammertone aluminum.

OPTIONS: The following options are available by adding the following suffix to the catalog number:
 “-LC” for Aux. Quartz Light (Light continuator), “-RB” for Remote Ballast, “-IR” for Instant Restrike (HPS ONLY), “-F” for Fused Ballast, (not for 1000W), “-486” for 480V 60 Hz Ballast, “-CB” for Housing modified to accept Crane Boom Mount (INX7001). Also available optional Shock mounts, Lens guards, Visor, Shock and Vibration lamp support, 220V 50 Hz Ballast and other voltages.

Watt	Material	Weight	Temperature Code	Cat. No.
HIGH PRESSURE SODIUM 70-1000W				
70W	Stainless	23 lbs.	T2B	NHIDLS7IB
