

KET MARINE

SEPARATORS SINCE 1985

**Separating the
best from the rest**

Your trusted separator experts since 1985

More than 30.000 different genuine & OEM quality spares and complementary services to keep your separators up and running!

OEM & genuine quality

KET Marine supplies OEM and genuine-quality spare parts for all GEA Westfalia & Alfa Laval separator generations. Each component is fully tested and certified to meet original specifications for maximum reliability.

Fast & reliable delivery

Our large inventory of GEA Westfalia & Alfa Laval separator parts ensures fast global delivery. Located between the ports of Rotterdam and Antwerp, we help your vessel stay operational with minimal downtime.

Over the past few decades, KET Marine has developed an extensive range of OEM and genuine quality spare parts that are suitable for GEA Westfalia and Alfa Laval separators.

The scope of the program varies from mechanical components, hydraulics, pumps, gaskets, control units and tools, through an extensive range of applicable components and gaskets for heat exchangers from various manufacturers.

Global stock availability

From classic OSA and OSB models to modern OSF spare parts, KET Marine maintains worldwide stock of GEA Westfalia & Alfa Laval spare parts and reconditioned separators ready for dispatch.

Technical expertise & support

Our engineers specialize in GEA Westfalia & Alfa Laval separators, offering complete technical assistance: from diagnostics and reconditioning to onboard service and maintenance planning.

The extensive range of separator equipment KET offers

GEA Westfalia

OTA, OTB, OTC, OSA, OSB, OSC, OSD, OSE and OSF series.

Alfa Laval

M-, F-, W-, P-, S- type series.

Separators

Reconditioned. Tested. Ready to perform.

To provide a reliable and professional solution, KET Marine supplies fully reconditioned separators directly from stock. Each unit is overhauled in accordance with original manufacturer standards.

After reconditioning, every separator undergoes an extensive test run with liquids, including full bowl rebalancing. Final approval is carried out by our experienced service engineers.

This ensures consistent performance and immediate deployment when it matters most.

Bowls

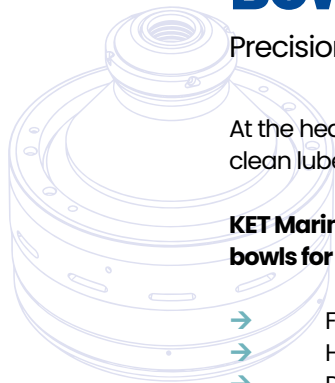

Precision at the core of your operation

At the heart of every separator, centrifugal force ensures clean lube and fuel oil for optimal engine performance.

KET Marine offers an extensive range of exchange bowls for GEA Westfalia and Alfa Laval. All bowls are:

- Fully balanced
- Hydro tested
- Ready for immediate dispatch

Each unit is delivered with a balancing and warranty certificate, ensuring reliability and peace of mind.

Control Units

Full control over your separator system

To complete our spare parts range, we supply exchangeable control units for GEA Westfalia and Alfa Laval systems.

Our portfolio includes:

- I/O-4 control units
- EPC 50/60/400 controllers
- EPC replacement parts
- PLC 100 replacements

By managing this program fully in house, we guarantee solutions that match original manufacturer standards, including service and technical support.

Spare Parts

From stock, worldwide

Our stock program includes approximately 30.000 different spare parts, so critical components are ready to ship when you need them.

Mechanical components, hydraulics, pumps, gaskets, control units and tools — all supported by dedicated people committed to keeping your separators up and running.

- OEM & genuine quality
- Full range of consumables & wear parts
- Control units: I/O-4, EPC, PLC
- Ready for immediate dispatch

Wherever & whenever you need us most

In maritime operations, time is critical. Delays in maintenance or unexpected downtime can have a direct impact on your schedule, operations and costs. That is why KET Marine is fully focused on delivering fast, reliable and flexible service, 24 hours a day, 365 days a year.

Our experienced team of service engineers is ready to support you wherever your vessel is located. Whether it is on board, in port or at our workshop, we ensure that issues are resolved quickly and efficiently, with minimal disruption to your operations.

We combine technical expertise with a practical, hands on approach. This allows us to not only solve problems, but also to prevent them by identifying risks early and advising on the best course of action.

Our service includes:

- Own team of highly skilled technical service engineers
- Global on board and on site attendance
- Fast response times and flexible planning
- Over 40 years of hands on experience
- Repair, overhaul and maintenance of critical components
- Support from our fully equipped workshop
- High quality replacement parts
- Ready for immediate dispatch

This ensures reliable performance and minimal downtime for your vessel.

At KET Marine, service is not just about fixing issues. It is about ensuring continuity, reliability and peace of mind, so you can focus on your operations with confidence.

Any time, any place, KET Marine will be at your service.

+31 168 328 550 - (24/7 service)

In need of spare parts?

30.000 interchangeable spare parts for GEA Westfalia and Alfa Laval from stock with global availability!

In need of service?

Our dedicated team of service engineers will assist you. On-site, from our workshop or remotely. Wherever and whenever you need us most!

In need of exchange equipment?

Extensive repair on board not possible or zero time left on the clock? Most critical components like bowls, frames and control units are available on exchange and from stock!

A large container ship is shown from a side-on perspective, sailing on a calm blue sea under a cloudy sky. The ship's deck is filled with stacks of colorful shipping containers in shades of red, yellow, and blue. The ship's hull is dark, and the wake of the vessel is visible in the water. On the left side of the image, there is a white rectangular box with rounded corners containing text.
