

Technical ship supply

Marine Technic, your technical and all-round supplier

Since 1978 Marine Technic has been a major and reliable supplier of spare parts, repairs, technical equipment and what else might be needed offshore for vessels and oil rigs all over the world.

We know the importance of correct and fast delivery and over the years we have built up very reliable and good relations with our suppliers, thus always ensuring you the best possible prices and the great opportunity of ordering from different makers at one place.

Marine Technic is the only right contact whether your demand is for a small simple item or the most complex system we are able to offer you the optimum technical and economical solution.

The staff of Marine Technic is always ready to render the best professional and most trustworthy service whenever and wherever you are in need of any kind of offshore supply.

Please find some of the products we supply on the back of this datasheet.

**We also supply equipment
and spares made in
China, Korea and Japan**
