

# Valve Service

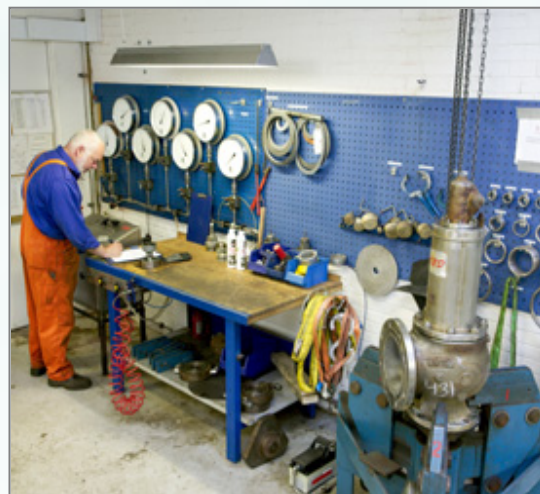

**Grønbech & Sønner A/S provides a complete service program for all kinds of valves – offshore as well as onshore.**

## Service

Grønbech & Sønner has the equipment and the expertise to perform testing, fault-finding, certifying, repair and systematic maintenance of valves.

Our service program covers, among others, the following valve types:

- Pressure Safety Valves
- Control Valves
- Reduction Valves
- Check Valves
- Gate Valves
- Ball Valves, etc.

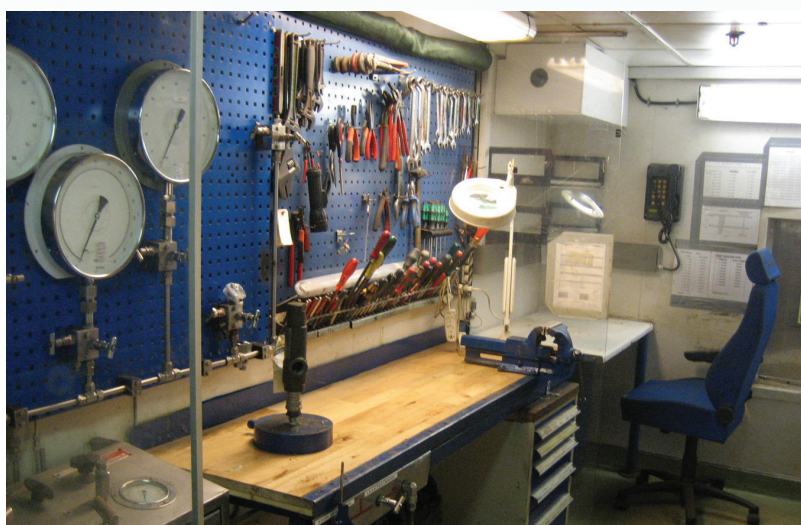

## Test equipment

Repair, test, calibration and certifying of safety valves can be executed on site or at our workshop. We have at our disposal a fully equipped transportable workshop container including a minor mobile test unit.

## ISO 9001 Certificate

Grønbech & Sønner's Service Center in Esbjerg is approved by the Danish Working Environment Authority and Danish Energy Agency.

We are ISO 9001 certified within the following product range: Repair, setting, verification and sealing of pressure safety valves online and off-line covering on- and offshore installations.

*With a mobile workshop container many tasks can be performed on-site.*
