**SOTECOGroup**

## Why choose Technoservice?

**Skills:** our technicians have multi-year experience in repairing and reconditioning of oil separators and bowls along with maintenance services on board of vessels and at power plants.

**Reliability:** Soteco International has been manufacturing spare parts for centrifugal separators for over 50 years. We hold valid DNV ISO 9001, 14001

and OHSAS 18001 manufacturing certificates, besides being subject to vetting inspections from some of the major companies in the market. We are always available for guided visits to production, service and logistic departments to show you concretely how our spares are designed and realized.

We can also provide separator modules complete with control panel, heater, pumps and all related field instruments.

**Warranty:** all reconditioned units are guaranteed for 12 months.

**COST-EFFECTIVE SOLUTION:** replacing your old purifier with a reconditioned unit by Technoservice will reduce your costs for maintenance. We guarantee the best quality on the market and long lifetime of our products. We can also propose exchange-basis offers.

**Peace of mind:** separators are reconditioned in our specialized workshops. All internal parts are checked, bearings and worn-out items are replaced with new spares produced by Soteco International. Bowls are vertically rebalanced and separators run tested. Our service engineers are available for start-up on board or in your power plant.

Also, our technical department can help you and your crew at any time. Call us if you have any enquiry and we will be happy to assist.

**World-wide:** we can deliver reconditioned units ex-works Genoa or Singapore. We also have service station in both locations where we can repair your separators and balance your bowls.
