

The most reliable and cost-effective solutions... tailored to your needs

Satcom Global is a leading global provider of Marine Electronic products and systems, boasting over 40 years' experience in the Maritime and Offshore markets (formerly AND Group Ltd).

We have accreditations from a number of professional bodies such as Achilles and are FPAL Verified. We also hold full certification to ISO 9001, so you know you are in the very best of hands, whatever your project may entail. Our friendly and expert support services include global maintenance, system integration and engineering.
