

DOCK HOSES

SW339 & EW339 - 200 PSI NITRILE / OIL SERVICE HOSE

Heavy duty dock hose designed to transfer petroleum products to and from tankers, barges and storage tanks. Resistant up to 50% aromatics. Smooth or corrugated construction (specify when ordering). Meets all USCG requirements.

Tube: Nitrile.

Reinforcement: Multiple plies of polyester yarn with dual wire helix.

Cover: Oil resistant synthetic rubber.

Temperature Rating: -40° to +180°F.

I.D.	O.D.	Bend Radius	Working Pressure*	Weight lb./ft.	Vacuum Rating
SW339					
4"	5-3/16"	16"	200	5.80	Full
6"	7-1/4"	36"	200	9.41	Full
8"	9-1/4"	48"	200	12.35	Full
EW339					
6"	7-1/8"	36"	200	8.00	Full
8"	9-1/4"	48"	200	13.30	Full
10"	11-15/32"	60"	200	20.00	Full
12"	13-9/16"	72"	200	27.00	Full

* 4 to 1 Safety Factor

Specify length (up to 100 ft.) and end fittings (at right) when ordering.

SW355 - 300 PSI PETROLEUM / OIL SERVICE HOSE

High pressure petroleum suction and discharge hose designed for barge applications. Up to 60% aromatics protection. Lightweight construction provides excellent flexibility for handling ease.

Not recommended for heavy duty dock hose applications

Tube: Extruded black nitrile.

Reinforcement: Multiple plies of polyester with dual wire helix.

Cover: Specially compounded nitrile.

Temperature Rating: -40° to +180°F.

I.D.	O.D.	Bend Radius	Working Pressure*	Weight lb./ft.	Vacuum Rating
