- Offices in Sweden, USA, Singapore, Finland and Korea
- Agents and representatives all over the world.
- Nearly 2,000 products for galleys and laundries.

LAUNDRY & GALLEY EQUIPMENT FOR CRUISE SHIPS

Loipart has installed catering systems on board Cruise Ships for decades. Not only do we provide Galley equipment, Laundry equipment and furniture following USPH rules and regulations, but our vast range of products and global services makes it possible for us to outfit any vessel or marine installation no matter of size or type. To make your product search easier, we have labelled all our products for your specific area of interest such as Cruise Ships. After all, features for galley equipment on board Cruise Ships are not the same as for other kind of vessels.

A broad program enables you to choose just the right standard for your needs on board.

MORE THAN 40 YEARS OF EXPERIENCE

Few companies have been in the business as long as we have. Our history goes back to the late 1970s. With more than 40 years in the business, we have delivered marine catering systems for Cruise Ships, Yachts, Cruise Ferries, RoPax & Offshore installations all over the world. That's why you always can rely on our in-depth knowledge to meet your demands.

But being experienced is only worth something if it goes hand in hand with curiosity for new solutions and technology. This makes it an exciting business, offering smarter handling, green energy solutions and improved performance.

GLOBAL AND LOCAL

The marine industry is a truly global business. So are we. But you have to act locally. We offer an extensive global network for support in a local basis. Our subsidiaries are strategically placed in US, Finland, Korea and Singapore. Our main office is located just outside Gothenburg, on the west coast of Sweden.

ALL YOU CAN 'T SEE

There is a soft part of our business besides the hard products you can touch and feel. Loipart is renowned for good relations, reliability and a flexible, personal approach.

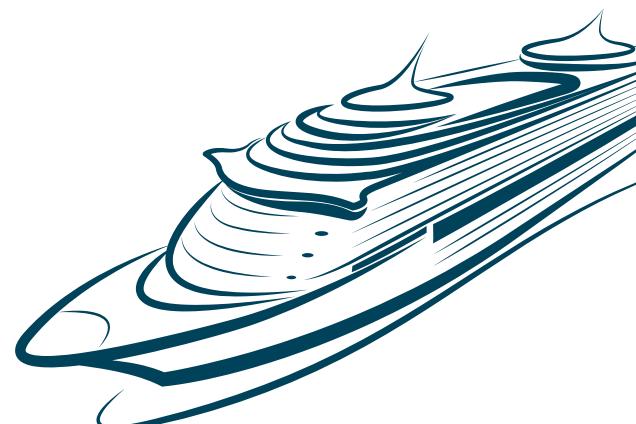

SHIP AS IN PARTNERSHIP

Working in the marine industry requires a lot of flexibility. You know the conditions: delays and changes are part of the daily routine. All such changes require flexibility. They also require in-depth co-operation with you the customer, with one common goal: always to find a solution. That's the only way to achieve a true partnership.

HOW CAN WE HELP?

We offer almost 2,000 products. It's an excellent start, but it takes more to be a partner and meet your requirements.

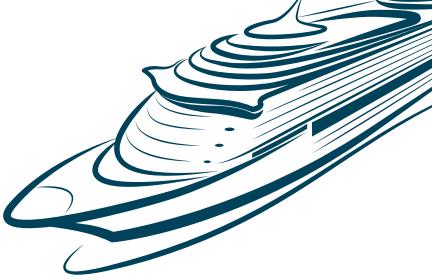

We hope to provide you with the very best product advice. You may even need help in designing either a completely new galley or conversion of an old one. Probably you don't want to be a project leader for many different suppliers of equipment and installations. And when setting sail you want to be absolutely sure of an effective technical support including worldwide supply of spare parts. In short: a one-stop solution. But don't take our word for it. Ask some of our 800 customers in 62 countries.

SOME OF OUR REFERENCE PROJECTS
