FACTORY-MADE RIGGING HARDWARE FOR QUICK ATTACHMENT

No splicing necessary – simply remove
 shackle pins – attach as directed and
 replace pins.

Refer to: #1, #2, and #3 above

Galvanized steel stowage brackets. Two brackets are required on each vessel. Brackets are provided for port and starboard use. Each bracket stores a smoke signal, a "Bridge Buoy" and a strobe lite. It ejects the "Bridge Buoy" with a single pull, via a leaf spring launcher. The brackets satisfactorily meet the requirements of SOLAS Chapter III, Regulation 71.3 and 46 CFR 199.70 (a)(1)(v) for the required means of quick release. Installations should be accomplished under the supervision of a Coast Guard inspector.
