# Deck Maintenance Products

**The Professional's Choice**

Established in 1983 and employee-owned, **Teakdecking Systems (TDS)** specializes in the design, manufacture, and installation of the highest-quality marine decks for the global marine market.

Over 30 years ago, TDS developed **SIS440**, their own seam compound, and today is the only manufacturer of **black, white, and gray teak** deck caulking designed to withstand the toughest marine environments.

TDS's expertise led to the creation of a range of purpose-made **epoxies** for deck installation and maintenance. These include **FFE-200** for gluing or fairing, **FE-180** for gluing, and **AP-100** for repairs, teak plug installation or about anything else that requires fixing with a quality epoxy glue.

As decking experts, TDS is frequently asked for advice on deck cleaning and maintenance, from customers concerned about environmental impact. TDS responded with **ECO-100** and **ECO-300**, environmentally friendly **cleaners** that are safe for marine life while performing better than harsh caustic or acid-based products. Both cleaners meet or exceed the standards of the **US Clean Marina Program** and are **MARPOL** compliant.

To further support customer needs, TDS developed innovative sealers, including the **Composite Sealer** and **Teak Sealer & Protector**, which are water-based, easy to use, and designed to simplify deck maintenance.

## Cleaners

- ▶ Cleans & Brightens Decks
- ▶ Gentle on Teak
- ▶ No acids, caustic sodas or phosphates

## Sealers & Protectors

- ▶ Translucent
- ▶ Easy to apply
- ▶ Long shelf life of 24 months

## Caulking
