Valve Center Marine have been supplying valves, actuators and similar equipment to the marine and off shore industry since 1997 and since our inception, we have been committed to concentrate on three crucial areas to ensure we perform beyond the expected standards of our customers.

## Quality

Products must be suitable for duty and manufactured to an excellent standard.

## Service

Ensure that we go beyond the expected level of service to make sure our customers are happy that they used Valve Center.

## Price

Competitively priced goods whilst maintaining the high level of quality. We will not be beaten on price for a comparable product.

We are happy to supply single valves and spares through to complete valve packages for new builds or refurbis in dry dock, **including inspection and certification**. No job is too big or small.

## Stock Range

Huge stocks of **Lloyds, DNV-GL and ABS** approved valves, to match **DIN, BS, ANSI and JIS** standards.

## Valves types

Globes, butterfly, quick closing, mud boxes, sea chests, sounding cocks, fire hydrants, gate valves + many others.

## Materials

Cast iron, ductile and SG iron, cast steel, stainless steel, bronze, aluminium bronze, duplex, super duplex, ABS, PVC, polyprop, aluminium and others.

## Customers

We deal with end users, ship yards and traders. Some of our long term customers include MSC, Maersk, Princess Cruises, Northern Marine + many others.

## Typical Prices

Here are some prices for our **Lloyds, ABS, European** quality butterfly valves (available in various materials and specifications) are as follows:

6"NB wafer type butterfly valve (multi-flanged to fit all flange configurations), GGG40 ductile iron body, 316 stainless steel disc, NBR rubber liner, lever operated @ **£120 with 47 in stock**
