VALVE CENTER

INDUSTRIAL VALVE STOCKIST, ACTUATORS & RELATED EQUIPMENT

**NORTH AMERICA
OFF SHORE.**

15 End of line and in line flame arrestors were supplied as direct replacements for installation on a deep sea oil rig.

BELGIUM.

Seven diaphragm valves were supplied by Valve Center on a next day air freight for an emergency breakdown.

ENGLAND.

New water board approved gate valves were supplied to replace old worn valves. Dimensions matched the old valves and removed the need to modify existing pipework.

RUSSIA.

Valve Center successfully fulfilled a time constrained contract to supply butterfly valves for two ship refurbishments.

ENGLAND.

10 Monel ball valves were supplied for installation during the refurbishment of a nuclear power plant.

Valve Center consider our customer's satisfaction as paramount. Although our ISO9002 quality procedures ensure that we continually maintain and monitor our performance, Valve Center go beyond these requirements to maximise customer satisfaction delivering the goods correctly and on time. We have vast stocks of valves, actuators and related equipment available and our standard delivery service can ensure you receive your goods the next day anywhere within the UK. We can also offer a same day nationwide delivery service for your more urgent needs. Valve Center can offer the most up to date valve and actuation technology such as Rotorks range of IrDA

compatible actuators which can be remotely commissioned by non intrusive infra red control. We can also offer a comprehensive valve repair and refurbishment service including a specialist service for safety and relief valves, in strict compliance with ISO 9001 procedures.

Valve Center can manage your export requirements and have a proven history of delivering products worldwide, along with the preparation and supply of export documentation / certificates of origin. Again with this service we can also offer fast track or next day deliveries. Valve Center are proud to be supplying many other valve suppliers who's names we respectfully do not mention.

CHINA.

Seventy two valves were supplied as part of a new chemical plant build which included the supply of safety relief valves.

SPAIN.

Hygienic valves complete with hygienic actuators were supplied as part of a six figure refurbishment project.

GERMANY.

A paper mill awarded Valve Center a five figure contract to supply valves including knife gate type.

S. AMERICA.

Valve Center completed a project worth £15K to supply pinch valves & spares to a renowned petrochemical company.

NAVAL.

£10K's worth of valves, which included large diameter gear operated ball valves were supplied for installation on a submarine.

MIDDLE EAST.

Valve Center was awarded a contract to supply fifteen 8"NB pressure / vacuum relief valves for bulk storage tanks as part of a major rejuvenation project.

AUSTRALIA.

Valve Center supplied 32 parallel slide valves which were used on a rejuvenation project for a fine chemical manufacturer.
