

Patent-registered brands by REBTEC®

Family-owned enterprise

The founders family is based in the Port of Hamburg for several generations and since then known as a reliable partner for high-quality and cost-efficient technical supply. The traditional background and multi-year professional experience results in technical knowledge and a broad network in the Port of Hamburg, Europe, and beyond.

As a start-up company established 2014, REBTEC® is proceeding this story with innovative, future-oriented direction.

Products & Warehousing

Selecting highly competitive products of well-established manufacturers, guaranteeing an optimal equipment performance.

1500 different items are ex stock available at our warehouse in Hamburg. And if your requested goods are not in stock, we assure short delivery times of more than 50.000 further products.

Custom made products

We are manufacturing exactly what you require - this is the essence of our business culture:

„Technical knowledge in the Port of Hamburg“

Shipment

At REBTEC® you will find a flat and transparent hierarchy, which results in continuing our efforts to provide high level standards, assuring short delivery times to ensure proper service.

We will be happy to provide consulting and will, in close cooperation with you, develop a solution that is ideally tailored to your particular requirements.

Whatever your questions or concerns, please feel free to get in touch with us.
