Introduction

About Us

MULTIDIGITAL is a role model integrated engineering and marine electronics company incorporated in year 2000 having its headquarters in Nigeria with a regional presence in Africa, mainly West and Central Africa. In early 2014, Multidigital was restructured as a team of experts from the maritime, oil & gas industry brought together their wealth of industry experience & global exposure.

About Us

Multidigital is a customer-oriented, future-focused, fast-growing company, progressively transforming into a knowledge-based organization, and increasingly reliant on intellectual resources rather than heavy assets and fixed capital. We are dedicated to setting the pace as a major provider of discrete solutions, products and services in Sub Sahara.

We design, procure, install, integrate, commission and maintain Communication, Navigation, Safety, Electrical, Instrumentation and Automation systems for land, maritime and deep water offshore oil and gas operations.

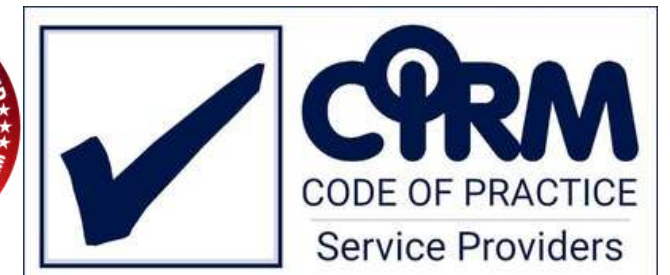

Introduction

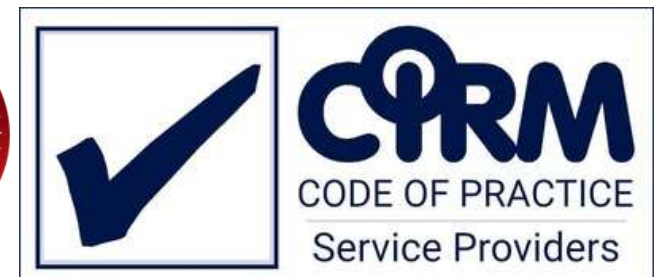

About Company

Multidigital is customer oriented, future focused, fast growing company, progressively transforming into a knowledge-based organization, and increasingly reliant on intellectual resources rather than heavy assets and fixed capital. We are dedicated to setting the pace as a major provider of discrete solutions, products and services in Sub Sahara. We design, procure, install, integrate, commission and maintain Communication, Navigation, Safety, Electrical, Instrumentation, Automation, Refrigeration and Air conditioning systems for land, maritime and deep water offshore oil and gas operations.

Our Vision

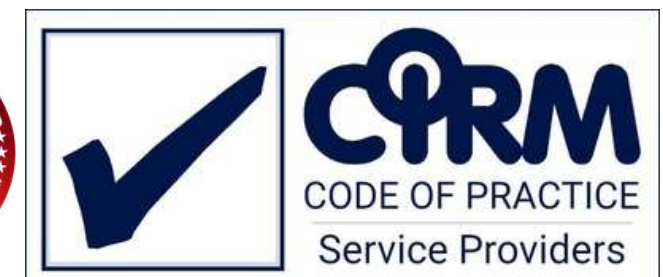

To be the preferred and leading Marine Electronics, Telecommunications, and Engineering services provider in Africa operating with the highest industry standards.

Our Mission

To provide premier, quality and efficient services of international standard with high level of Integrity.
