CEYLINE

ENGINEERING SERVICES (CES)

ABOUT CEYLINE ENGINEERING SERVICES

Ceyline Engineering Services (CES) was established in 1991 as the marine engineering division of the Ceyline Group, one of Sri Lanka's leading maritime conglomerates.

With a highly skilled, disciplined, and experienced workforce, CES has built a strong reputation for delivering reliable engineering solutions to ship owners, operators, and agents both locally and internationally.

Our facility is equipped with advanced machining, welding, fabrication, and assembly capabilities, enabling us to handle projects of varying scale and complexity. We specialise in delivering customised engineering solutions tailored to meet the specific requirements of each client.

At CES, our technicians work closely with customers to ensure optimal performance, precision, and durability in every repair and installation. We are committed to continuous improvement and actively invest in new technologies to remain at the forefront of the marine engineering industry.

Whether it is repairs, new installations, system design, or planned maintenance, CES is your trusted engineering partner.

OUR SERVICES

VESSEL SERVICES

Afloat & Voyage Repairs

- Emergency breakdown support
- Main engine repairs and complete overhauls
- Auxiliary engine and generator repairs
- Engine room machinery troubleshooting and maintenance
- Hydraulic system repairs and servicing
- Electro-automation services
- Air conditioning and refrigeration plant repairs and overhauls
- Steel renewal, piping fabrication, and structural repairs
- Certified welding (SMAW, GTAW, MIG)

Deck & Machinery Services

- Deck machinery repair and maintenance
- Cargo gear and winch repairs
- Tank cleaning services
- Lifeboat inspection, servicing, and spare parts supply

LSA & FFA Annual Inspection & Certification

- Lifesaving Appliances (LSA) inspection and certification
- Firefighting Appliances (FFA) inspection and certification
- Fire extinguisher servicing and certification
- Hydrostatic pressure testing of cylinders
- Supply and replenishment of AFFF foam

Supply & Technical Support

- Supply of marine equipment and class-approved items
- Marine stores and genuine spare parts supply
- Skilled manpower supply (offshore and onshore)
- Marine electronics installation and technical support
- Diving, underwater inspection, and repair services

Marine Engineering Consultancy

- Technical consultancy and repair planning
- Project coordination and supervision
- Emergency marine technical assistance

Welding & Fabrication

- LR Class-certified welding and fabrication workshop
- Class-approved welding repairs
- Hull steel renewal
- Engine room pipe fabrication
- Deck piping systems

TERMINAL SERVICES

QC – Quay Crane

- Motor, hoist, and cable repairs
- Electrical system and control panel maintenance
- Routine lubrication and safety checks
- Replacement of worn mechanical components
- Hoist wire rope replacement
- Gearbox and hoist motor repairs
- Drum and sheave alignment

RTG – Rubber Tyred Gantry Crane

- Engine and generator servicing
- Hydraulic system repairs
- Tire maintenance
- Spreader and lifting mechanism inspections
- Electrical and control system troubleshooting

OUR STENGTH CEYLINE GROUP

Established in 1985, the Ceyline Group is a diversified conglomerate with operations spanning shipping, marine engineering, logistics, travel and leisure, maritime education, and healthcare.

With over 800 employees and nearly four decades of industry experience, the Group has developed strong partnerships with both local and international stakeholders, creating a competitive advantage across all sectors.

Ceyline provides integrated, cost-effective, and comprehensive maritime and logistics solutions, positioning itself as a trusted partner in the region.

OUR SECTORS

- The Ceyline Group operates across a diverse range of industries, including:
- Shipping agency and ship husbandry
- Marine supplies and vessel management
- Crew recruitment and management
- Maritime education and training
- Reefer container management and repairs
- Freight forwarding, logistics, and transportation
- Container storage and leasing
- Travel and tourism services

COMPETITIVE ADVANTAGES

IN-HOUSE EXPERTISE

Our certified team of welders, marine engineers, and technical specialists ensures efficient, high-quality service delivery without delays or dependency on third parties.

BACKED BY A STRONG CONGLOMERATE

As part of the Ceyline Group, we leverage a wide network of support services and industry partnerships to deliver complete solutions.

CAPABILITY TO HANDLE COMPLEX PROJECTS

We have the expertise and infrastructure to manage multiple, complex vessel requirements simultaneously, including afloat repairs and riding gang services.

RAPID RESPONSE & MINIMAL LEAD TIME

We operate 24/7, ensuring fast turnaround times and immediate response to urgent requirements.

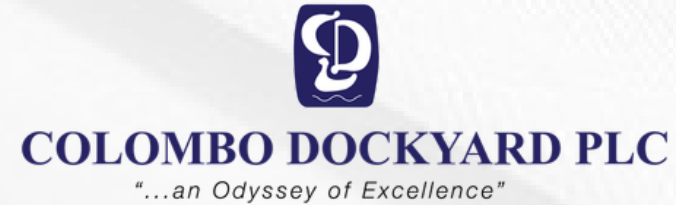

GLOBAL ACCESSIBILITY

Our operational reach extends across all ports in Sri Lanka and internationally, including key locations such as Dubai and Bahrain dry docks.
