

## **BECK MARINE: YOUR TEMPORARY PROTECTION GUIDE**

Your ultimate guide on how best to protect floors, walls, furniture and more on marine refurbishment and construction projects.

# BECK MARINE: YOUR GUIDE TO TEMPORARY PROTECTION PRODUCTS

During marine refurbishment or construction projects, accidents will happen and damage can cost time, money and reputation to fix.

Beck Marine's comprehensive range of temporary protection products give you peace of mind knowing that surfaces and other elements on your vessel are protected during busy construction works.

In this guide we have put together a list of products best suited to protect the different parts of your vessel, helping you choose the right protection solution.

Our protection guide covers the six main areas that would need protection during construction.

## PROTECTION PRODUCTS

# INTERNAL AND EXTERNAL FLOOR & WALL PROTECTION

Without using temporary floor protection materials, you run the risk of incurring extra replacement or cleaning costs if there is damage caused during install or construction.

This can be avoided by protecting your flooring and carpets using one of our many products.

	LOW	MEDIUM	HIGH
By Floor Type	For lower level protection of areas with moderate foot traffic	For medium-level protection areas with high levels of foot traffic or light vehicles and machinery.	For high-level protection areas such as decks that need protection from freight containers or heavy machinery.
<b>Carpet Protection</b>  Acrylic Polyester Nylon	<b>Carpet Protection Film</b>  Self-adhesive. Can be rolled out by hand or applied using applicator. Waterproof. Can be left on for 40 days without leaving residue. FR options available.  <b>Relevant Products</b> <a href="#">PFCF11E</a> , <a href="#">PFCFR14E</a> , <a href="#">PFCF15E</a>	<b>IMO-Certified Protection Board</b>  Higher impact protection -made from corrugated plastic. Non-adhesive - no risk of residue - so can be used for wool carpets. Waterproof. Easy to cut with a knife. Lightweight - easy to handle.
