WHO WE ARE

We are Alfa Marine Solutions, a company with over **8 years** of experience in the marine spare parts industry. Our strength lies in a strategic cooperation between **Poland, China, Japan** and **Korea**, enabling both global reach and local precision. We specialize in supporting **2-stroke** and **4-stroke** engines with consistent reliability.

Over **99%** of the parts we supply perform flawlessly in operation, without any claims – a result of strict quality control and trusted manufacturing sources.

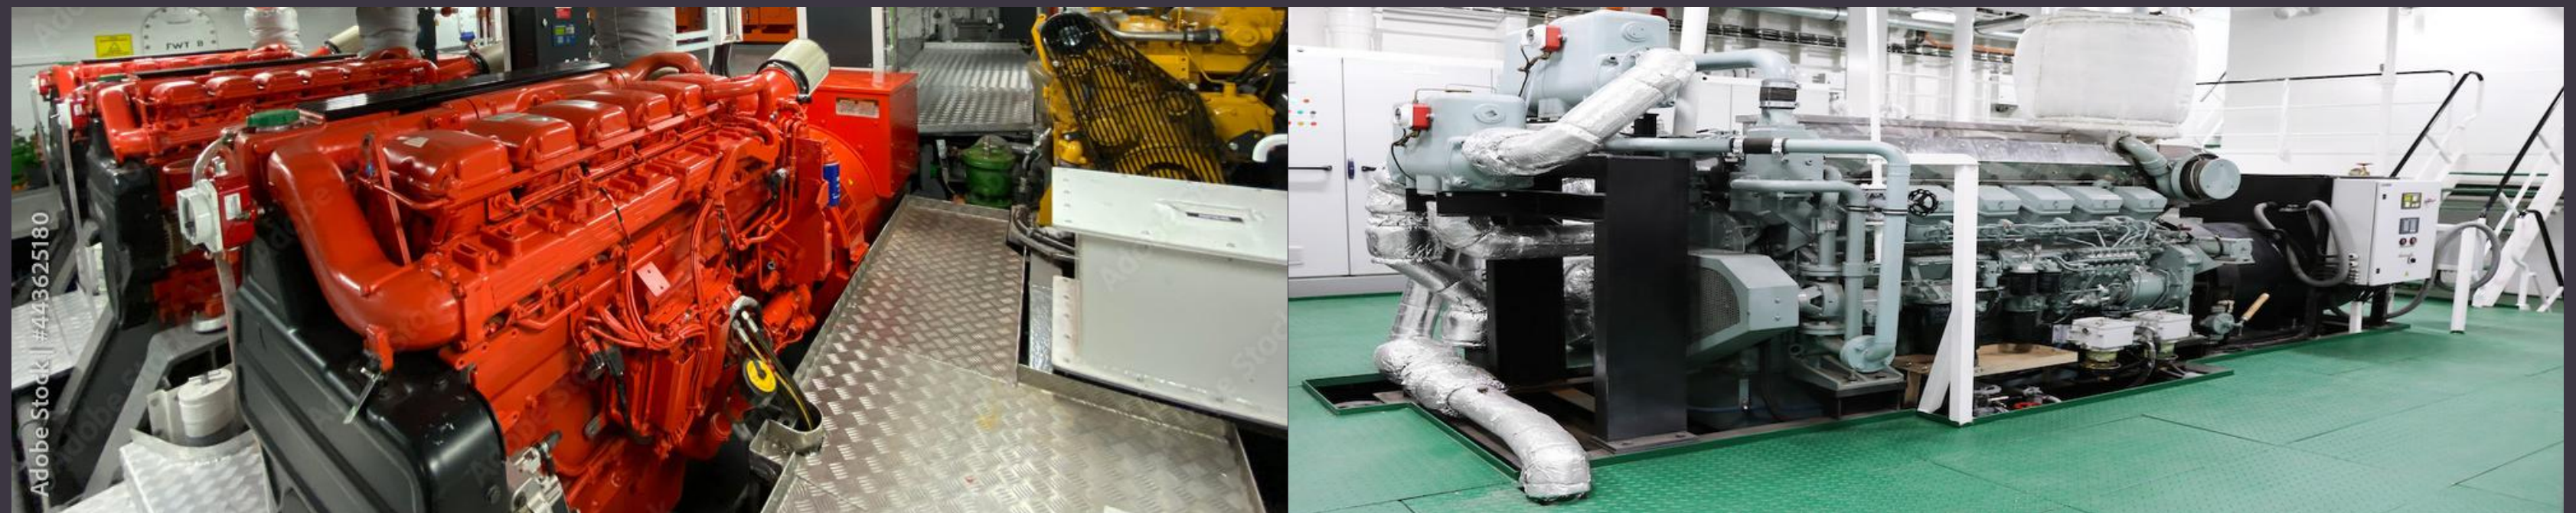

WHAT WE OFFER

We provide **genuine, OEM, and certified engine parts** to ensure consistent performance and long-term value. Our offer covers critical components that directly affect the safety and efficiency of your vessel's engine. We also deliver complete **turbocharger and pump solutions** tailored to your specific technical requirements.
