

Alfa Marine Solutions specializes in the supply of spare parts for 2-stroke engines. Our offer is comprehensive and includes the most important engine components such as spindle valves. The result of long-term cooperation with certified manufacturers is guaranteed quality, fast delivery time, competitive price and the support of our logistics service. Our company responds to the market needs and offers deliveries from several major warehouses in Poland and Asia. The valve spindles we supply are mounted on all major types of engines i.e.: MAN, MITSUI or Wartsila.
