

SAFETY SERVICES LLP

ONCE WITH US ALWAYS SAFE WITH US

SAFETY SERVICES, SUPPLIES, REPAIRS & CONSULTANTS
LSA/FFA / LIFEBOAT / LIFERAFT / CALIBRATION / CARGO GEAR SERVICING COMPANY

Our Services

- Fire Fighting Equipment (FFE)
- Life Saving Appliances (LSA)
- Lifeboat & Davits
- Calibration Services
- Communication and Navigation Services
- Other Services

OM SAFETY SERVICES LLP
ONCE WITH US ALWAYS SAFE WITH US

VISION & MISSION

VISION STATEMENT

- » To Acquire and maintain global leadership position in chosen areas of businesses
- » To continuously create new opportunities for growth in our strategic businesses
- » To remain the top 10 most admired companies to work for in the industry

CUSTOMER SATISFACTION

To consistently deliver reliable, safe, and high-quality services that exceed customer expectations, ensuring trust and long-term partnerships.

OPERATIONAL EXCELLENCE

To achieve efficiency, precision, and compliance in every project through continuous improvement, skilled work force, and adherence to international standards.

COMPETITIVENESS

To remain agile, cost-effective, and innovative in our solutions, ensuring we provide maximum value to clients while maintaining leadership in the marine safety services industry.

About us

At Om Safety Services, we pride ourselves on being your comprehensive partner in maritime safety, security, and efficiency. With a diverse range of services tailored to meet the unique needs of the shipping industry, we ensure that vessels operate smoothly and securely on every voyage.

OUR VALUES

1

SAFETY AND
REDUCING RISK
IS INTEGRAL TO
EVERYTHING WE DO

2

WE ARE COMMITTED
TO DELIVER REAL
VALUE AND
CONFIDENCE TO OUR
CUSTOMERS

3

WE CARE FOR
OUR PEOPLE AND
INVEST IN THEIR
DEVELOPMENT AS
INDIVIDUALS AND
TEAMS

4

WE AIM FOR
EXCELLENCE IN
EVERYTHING WE DO

5

WE SEEK TO
INNOVATE AT EVERY
OPPORTUNITY

6

INTEGRITY : WE DO
WHAT WE SAY
WE WILL DO

At **Om Safety**, the foundations of how we act a business are based on our **values**.

We Om Safety to embed these values of **Safety, People, Customers, Excellence** and **Innovation**, all underpinned by **integrity**, in all that we do.

1. Fire Fighting Equipment (FFE)

Om Safety Services is a leading provider of comprehensive Fire Fighting Equipment (FFE) services tailored to the unique needs of the shipping industry. With a commitment to excellence and safety, we ensure that vessels operate at the highest standards of fire safety and compliance on every voyage. Our services include:

- Fixed CO2 System
- Galley CO2 Fire Extinguishers
- Portable CO2 Fire Extinguishers
- SCBA Cylinders & Sets
- EEBD Cylinders & Sets
- AFFF Fire Extinguishers
- A+B Foam Fire Extinguishers
- DCP Fire Extinguishers
- Water Type Fire Extinguishers
- Foam Applicator
- Dry Powder System
- Wet Chemical System
- Water Mist System
- Fixed Foam Tank System
- Fire Detection System
- Smoke Detection System
- Fireman's Outfit

Our FFE Services:

1. Inspection and Hydrotesting:

Annual, biannual, 5 yearly, and 10 yearly inspection and hydrotesting of Fixed CO2 System, Galley CO2 Fire Extinguishers, and Portable CO2 Fire Extinguishers Approved by NK.

2. SCBA and EEBD Maintenance:

Inspection, repair, and hydrotesting of SCBA Cylinders & Sets and EEBD Cylinders & Sets to ensure their functionality and reliability during emergency situations.

3. Fire Extinguishers Services:

Inspection, hydrotesting, and refilling of AFFF Fire Extinguishers, A+B Foam Fire Extinguishers, DCP Fire Extinguishers, and Water Type Fire Extinguishers to maintain their readiness for firefighting operations.

4. Fire Suppression Systems:

Inspection of Foam Applicators, refilling of Dry Powder Systems, Wet Chemical Systems, Water Mist Systems, and maintenance of Fixed Foam Tank Systems to ensure effective fire suppression capabilities.

5. Detection Systems Maintenance:

Inspection and repair of Fire Detection Systems and Smoke Detection Systems to promptly detect and alert crew members in case of fire hazards.

6. Fireman's Outfit Inspection:

Comprehensive inspection and maintenance of Fireman's Outfits to ensure the safety and protection of crew members during firefighting operations.

2. Life Saving Appliances (LSA)

- Medical Oxygen Cylinders & Resuscitator
- Life Boat Air Cylinders
- Immersion Suits
- Chemical Suits
- BA Compressor
- Life Jacket & Life Vest

Our LSA Services:

1. Medical Oxygen Cylinders & Resuscitator:

Inspection, hydro testing, repair, and refilling of Medical Oxygen Cylinders & Resuscitators to ensure their functionality and readiness during medical emergencies at sea.

2. Life Boat Air Cylinders:

Inspection, hydro testing, and maintenance of Life Boat Air Cylinders to guarantee their reliability and effectiveness in supporting lifeboat operations.

3. Immersion Suits:

Inspection, repair, and pressure testing of Immersion Suits to ensure they meet safety standards and provide essential protection against cold water immersion.

4. Chemical Suits:

Thorough inspection of Chemical Suits to verify their integrity and readiness for use in hazardous chemical spill situations.

5. BA Compressor:

Inspection and repair of Breathing Apparatus (BA) Compressors to ensure they are in optimal condition for supplying breathable air to personnel during emergency situations.

6. Life Jacket & Life Vest:

Inspection and repair of Life Jackets & Life Vests to maintain their buoyancy and functionality, crucial for ensuring the safety of individuals in the event of a man overboard situation.

LIFE SAVING APPLIANCES (LSA)

3. Lifeboat & Davits

- Lifeboat / Rescue Boat
- Davit & Winch
- Release Mechanism
- Repairs

Our Lifeboat Services:

1. Inspection:

Thorough inspection of lifeboats and rescue boats to identify any signs of wear, damage, or malfunction that could compromise their integrity or functionality.

2. Repair:

Expert repair services to address any issues discovered during inspection, ensuring that lifeboats and rescue boats are restored to optimal condition and compliance with safety regulations.

3. Load Test (5-Yearly):

Rigorous load testing conducted every five years to verify the structural integrity and safe operation of lifeboats and rescue boats under load conditions, providing assurance of their reliability during emergency evacuations.

4. Davit Services:

Inspection: Thorough examination of davit systems to identify any signs of wear, corrosion, or mechanical issues that may affect their performance.

Repair : Expert repair services to address identified issues and ensure the reliability and functionality of davit systems.

Load Test (5-Yearly):

Rigorous load testing conducted every five years to validate the structural integrity and safe operation of davit systems under load conditions, in compliance with industry regulations.

5. Winch Services:

Inspection: Comprehensive inspection of winch systems to assess their condition and detect any abnormalities or malfunctions.

Repair : Skilled repair services to rectify any identified issues and restore winch systems to optimal working.

4. Calibration Services & Repairs

- Oil Discharge Monitoring System
- Oily Water Separator System
- Fixed Gas Detection System
- Portable & Personal Gas Detectors
- Pressure & Temperature Calibrator
- UTI Tape & Sampler

Our Calibration Services:

1. Gas Detector Calibration and Repair:

- Portable Gas Detectors
- Fixed Gas Systems
- Oxygen Analysers

2. Pressure and Temperature Calibrator Calibration:

- Calibration of Pressure Calibrators
- Calibration of Temperature Calibrators

3. UTI Tape Calibration and Repair:

- Calibration and Repair of UTI Tapes

4. Fixed System Calibration:

- ODME (Oil Discharge Monitoring Equipment)
- OWS (Oily Water Separator)
- VECS (Vapor Emission Control System) And others

LIFEBOAT & DAVITS

CALIBRATION SERVICES

5. Communication and Navigation Services

- Radio inspection
- Voyage Data Recorder (VDR) inspection
- Automatic Identification System (AIS)
- EPIRB / SART / 2 Way R/T
- Autopilot / Gyro Compass / Magnetic Compass
- Ship Security Alert System
- Communication and Navigation Equipment Repair
- Installation and Maintenance

Our Communication & Navigation Services:

1. Radio Inspection and Maintenance:

Thorough inspection and maintenance of radio communication systems to ensure optimal functionality and compliance with maritime regulations.

2. Voyage Data Recorder (VDR) Inspection and Maintenance:

Comprehensive inspection and maintenance of VDR systems to ensure accurate recording and storage of voyage data for compliance and safety purposes.

3. Automatic Identification System (AIS) Installation and Maintenance:

Professional installation and ongoing maintenance of AIS equipment to facilitate accurate vessel identification and collision avoidance.

4. EPIRB / SART / 2 Way R/T Installation and Maintenance:

Expert installation and maintenance of Emergency Position Indicating Radio Beacons (EPIRBs), Search and Rescue Transponders (SARTs), and Two-Way Radios for reliable distress signal transmission.

5. Autopilot / Gyro Compass / Magnetic Compass Installation and Maintenance:

Professional installation and ongoing maintenance of autopilot systems, gyro compasses, and magnetic compasses to ensure precise navigation and heading control.

6. Ship Security Alert System (SSAS) Installation and Maintenance:

Expert installation and maintenance of Ship Security Alert Systems to enhance vessel security and compliance with international security regulations.

7. Communication and Navigation Equipment Repair and Maintenance:

Ongoing maintenance and repair services for communication and navigation equipment to ensure reliability and performance optimization.

6. Other Services

- Indian Cargo Gear Services
- Load Testing of Cranes (Wire Rope Splicing, D Shackle, etc.)
- Under Water Inspection / Cleaning (Under Water Cutting, Welding, UT Gauging, Repair, Hull Cleaning, Propeller Polishing, Videography/Photography)
- NDT (Non-Destructive Testing) & UTM (Ultrasonic Thickness Measurement) Services
- Bollard Pull & Load Testing
- Oxygen and Acetylene System Inspection and Line Pressure Testing as per Right Ship

Our Services:

1. Cargo Gear Inspection:

Thorough inspection of cargo handling equipment to ensure compliance with Indian maritime regulations and international standards.

2. Cargo Gear Maintenance:

Routine maintenance and servicing of cargo gear systems to optimize performance and prevent equipment failures.

3. Cargo Gear Repair:

Expert repair services for cargo gear components, including winches, cranes, derricks, and hoists, to restore functionality and extend equipment lifespan.

4. Cargo Gear Testing:

Comprehensive testing and load certification of cargo gear systems to ensure safe and efficient operation during cargo handling operations.

5. Cargo Gear Installation:

Professional installation of new cargo gear systems or retrofitting of existing systems to meet evolving operational requirements.

6. Load Testing of Cranes:

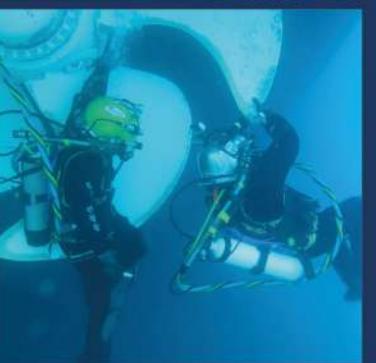

Rigorous load testing of cranes to verify their capacity and performance, ensuring safe and efficient operation in various lifting scenarios.

7. Wire Rope Splicing:

Expert wire rope splicing services to ensure secure connections and optimal performance of lifting equipment.

8. D Shackle Testing:

Thorough testing and inspection of D shackles to verify their strength and integrity, crucial for safe lifting operations.

OTHER SERVICES

-Cont.

9. Rigging Equipment Inspection:

Comprehensive inspection of rigging equipment, including slings, shackles, and hooks, to identify any signs of wear or damage and ensure compliance with safety standards.

10. Certification and Documentation:

Issuance of load testing certificates and documentation to provide evidence of compliance with regulatory requirements and industry standards.

11. Underwater Inspection:

Thorough inspection of underwater structures, including ship hulls, pipelines, and offshore platforms, using advanced techniques such as UT gauging and videography / photography.

12. Underwater Cleaning:

Professional cleaning of submerged surfaces to remove marine growth, corrosion, and other contaminants, enhancing the performance and longevity of underwater assets.

13. Underwater Cutting and Welding:

Expert underwater cutting and welding services for repairs, modifications, and maintenance of underwater structures, pipelines, and vessels.

14. Hull Cleaning:

Specialized cleaning of ship hulls to improve hydrodynamics, reduce fuel consumption, and prevent the spread of marine organisms, helping vessels operate more efficiently and sustainably.

15. Propeller Polishing:

Precision polishing of propellers to remove fouling and corrosion, optimizing propulsion efficiency and reducing fuel consumption.

16. Videography / Photography:

High-definition videography and photography services to document underwater inspections, surveys, and construction projects for analysis and reporting purposes.

17. Non-Destructive Testing (NDT):

Comprehensive NDT services using advanced techniques such as radiographic testing (RT), magnetic particle testing (MPT), liquid penetrant testing (LPT), and visual testing (VT) to detect flaws, defects, and irregularities in materials and structures without causing damage.

18. Ultrasonic Thickness Measurement (UTM):

Accurate and precise measurement of material thickness using ultrasonic technology to assess structural integrity, corrosion levels, and material degradation in a wide range of applications, including pipelines, storage tanks, pressure vessels, and ship hulls.

19. Bollard Pull Testing:

Precise measurement of a vessel's bollard pull capacity to assess its towing capabilities and ensure compliance with industry standards.

20. Load Testing:

Rigorous load testing of cranes, winches, lifting equipment, and other heavy machinery to verify their safe working load limits and structural integrity.

Why
Choose
Us

Expertise :

Our team consists of highly trained professionals with extensive experience in maritime safety and compliance.

Compliance:

We ensure that all services adhere to relevant regulations and standards, providing peace of mind to vessel operators and owners.

Reliability :

With a focus on reliability and efficiency, we strive to minimize downtime and maximize the readiness of fire-fighting equipment.

Customer Satisfaction :

Customer satisfaction is our top priority. We work closely with clients to understand their specific needs and deliver tailored solutions that exceed expectations.

At Om Safety Services, we understand the importance of fire safety at sea. Trust us to be your partner in ensuring the safety and security of your vessel and crew. Contact us today to learn more about our services and how we can assist you in maintaining a safe and compliant maritime environment.

With a commitment to excellence, safety, and reliability, Om Safety Services is your trusted partner for all your maritime service needs. Contact us today to learn more about how we can enhance the efficiency and safety of your fleet.
