

CLEANING PRODUCTS

Electro cleaner

Cat.No.	Description
600100	Jerry-can of 20 liters

Cleaning products, make CRC and others

Cat.No.	Description	
602120	Co contact cleaner CRC in spray can, for sensitive electrical/electronic equipment	250 ml
602130	2/26 CRC in spray can, improves electrical properties frees rusted parts, lubricates, stops corrosion displaces moisture	250 ml
602140	Lectra clean II CRC in spray can, heavy duty cleaner and degreaser for electric motors and equipment	500 ml
602150	Lectra clean II CRC in can	5 litre
602160	3/36 CRC in spray can, frees rusted parts. Lubricates stops corrosion, displaces moisture. Penetrates through rust and corrosion and seals out harmful moisture	250 ml
602170	5/56 CRC in spray can, stops squeaks, protects metals, frees rusted parts and starts wet engines	200 ml
602810	Industrial degreaser , dissolves and removes greases, oils, lubricants and adhesives	500 ml
602180	Zinc-it CRC in spray can, cold galvanizing coating, protects iron and steel through sacrificial action, even when scratched or abraded	500 ml
602190	Soft Seal SP400 CRC in spray can, protects metals against rust and corrosion. Leaves a dry transparent film, easy to remove. Highly resistant to salt water and corrosive atmospheres	300 ml
602200	Kontakt dust off spray can , removes dust from electronic, photographic and office equipment	200 ml
602220	Motor starter CRC in spray can, quick start for diesel and petrol engines	200 ml
602780	Freeze 75 , is an insert coolant for locating thermal intermittent components on electronic equipment	200 ml
602784	Brakleen CRC in spray can, cleans and degreases brakes and clutches. Powerful and fast-working cleaner. Leaves no residue. Removes oil, brake fluid, grease and hardend deposits	500 ml
602750	Kontakt Silicone 72 in spray can, contains silicon. It is used for different purposes of insulating in the TV, radio and electronic engineering. It prevents sputtering, jump sparks and leakage current	200 ml
602790	Kontakt Tuner 600 in spray can, for cleaning tuners and other delicate electronic units and contacts	200 ml
602800	Cramolin M in spray can, cleaner for magnet heads	200 ml
602820	Kontakt SK10 in spray can, is a protecting and coating lacquer, capable to be soldered. For printed circuits and bare metal parts that are to be protected	200 ml
602830	Cramolin A in spray can, is a surface active antistaticum. It works antistatic with plastics, plastic fibers and all materials that load an electrostatic	200 ml
